Scoping Process

Due to ongoing concerns with large gatherings related to COVID-19, we do not intend to hold in-person public scoping meetings or an in-person environmental site review. Additionally, staff's review of the PAD indicates that the complexity of the resource issues is minor and the level of anticipated controversy associated with the project is expected to be minimal. Therefore, we are waiving section 5.8(b)(viii) of the Commission's regulations and do not intend to conduct a public scoping meeting or environmental site review in this case. Instead, we are soliciting written comments on the SD1. Any individual or entity interested in submitting scoping comments must do so by the date specified in item o. SD1, which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission's mailing list. Copies of SD1 may be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link. Follow the directions for accessing information in paragraph n. Based on all written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.
