Proposal Under OMB Delegated Authority To Extend for Three Years, Without Revision, the Following Information Collection

Collection title: Intermittent Survey of Businesses.

Collection identifier: FR 1374.

OMB control number: 7100-0302.

Frequency: Annual, and as needed.

Respondents: Businesses, and as warranted by economic conditions, state and local governments.

Estimated number of respondents: 1,500.

Estimated average hours per response: 0.25.

Estimated annual burden hours: 1,125.

General description of collection: The FR 1374 survey data are used to gather information to enable the Federal Reserve System to carry out its policy and operational responsibilities. Under the guidance of the Board, Reserve Banks survey business contacts as economic developments warrant. Usually, these voluntary surveys are conducted by telephoning or emailing purchasing managers, economists, or other knowledgeable individuals at selected, relevant businesses. Reserve Banks may also use online survey tools to collect responses to the survey. The frequency and content of the questions, as well as the entities contacted, vary depending on developments in the economy. These surveys are conducted to provide Board members and Reserve Bank presidents real-time insights into economic conditions. The Board tailors these survey questions to match current concerns and interests, but they are not meant to supplant the more rigorous, existing economic reporting. The Board collects individual responses from the Reserve Banks and then distributes aggregate information to Board members and Reserve Bank presidents.

Legal authorization and confidentiality: The FR 1374 is authorized by sections 2A and 12A of the Federal Reserve Act (FRA). Section 2A of the FRA requires that the Board and the Federal Open Market Committee (FOMC) "maintain long run growth of the monetary and credit aggregates commensurate with the economy's long run potential to increase production, so as to promote effectively the goals of maximum employment, stable prices, and moderate long-term interest rates." Section 12A of the FRA further requires the FOMC to implement

"regulations relating to the open market operations" conducted by Federal Reserve Banks "with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country." The Board and FOMC use the information obtained through the FR 1374 to discharge these responsibilities.

Responding to surveys under the FR 1374 is voluntary. Individual respondents may request confidential treatment for information provided in response to a survey in accordance with the Board's Rules Regarding Availability of Information,¹ and any such requests for confidential treatment will be reviewed on a case-by-case basis. Information may be kept confidential under exemption 4 of the Freedom of Information Act to the extent it is confidential commercial or financial information that is both customarily and actually treated as private.

Board of Governors of the Federal Reserve System, June 29, 2022.

Michele Taylor Fennell,

Deputy Associate Secretary of the Board.
