

collection and comprised of two components. An application including a strategic plan and annual self-assessment. The self-assessment reflects what the state has done in the prior year focusing on its progress and status within the change management cycle. The strategic plan looks forward to those interventions and actions the state plans to undertake to address needs or

buttress strengths they have discovered in their assessment activities. Additions from the prior approval include infrastructural questions around the Child and Family Services Reviews regarding efforts to engage legal and judicial staff and collaborate with the child welfare agency. They also include overall court structural questions which are responsive to requests from grantees

to facilitate peer connections of similarly situated states. The next application will be due June 30, 2023.

Respondents: We anticipate the highest state court of every state, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands to respond. All 53 jurisdictions currently participate in the program.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of responses per respondent	Average burden hours per response	Annual burden hours
Annual Self-Assessment	53	1	40	2,120
Strategic Plan	53	*.20	52	551.20
Estimated Total Annual Burden Hours:				2,671.20

* The full Strategic Plan is completed every 5 years. In years when the Strategic Plan is not completed, respondents may spend minimal time updating relevant sections of the Strategic Plan. This is accounted for in the estimate for the Annual Self-Assessment.

Comments: The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Authority: 42 U.S.C. 629h.

Mary B. Jones,

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Generic Program-Specific Performance Progress Report (0970-0490)

AGENCY: Office of Planning, Research, and Evaluation, Administration for Children and Families, HHS.

ACTION: Request for public comments.

SUMMARY: This notice describes the proposal to extend data collection under

the Administration for Children and Families (ACF) Generic Program-Specific Performance Progress Report (PPR) (0970-0490). This overarching generic allows ACF program offices to collect performance and progress data from recipients and sub-recipients who receive funding from ACF under a discretionary grant or cooperative agreement. This generic mechanism provides the opportunity for ACF program offices to tailor requests for performance and progress data to specific funding recipients. No changes are proposed to the purpose or use of the data collections under this generic, but ACF is requesting an increase in burden.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: You can obtain copies of the proposed collection of information and submit comments by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: ACF is primarily a grant-making agency that promotes the economic and social well-being of families, children, individuals and communities with partnerships, funding, guidance, training and technical assistance. Prior to the use of this generic program-specific PPR, a standard ACF PPR (#0970-0406) was used for all ACF discretionary grant and cooperative agreement awards for post

award reporting. Historically, on the standard ACF PPR form, ACF required grantees to only respond to a common set of broad questions, which often solicited qualitative or incomplete information. This one-size-fits-all approach did not adequately collect the specific data needed for particular grant programs or allow program offices to assess continuous quality improvement. Different grant programs vary in purpose, target population, and activities. Therefore, a need for program offices to customize performance measurements was identified and the generic program-specific PPR was developed.

ACF program offices have benefited from the ability to create and use a program-specific PPR that is more effective and includes specific data elements that reflects a specific program’s indicators, demographics, priorities and objectives.

A generic program-specific PPR that can be tailored for program-specific needs allows program offices to collect useful data in a uniform and systematic manner. The reporting format allows program offices to gather uniform program performance data from each grantee, allowing aggregation at the program level to calculate outputs and outcomes, providing a snapshot and allowing for longitudinal analysis.

Data from a tailored program-specific PPR that demonstrates a program’s successes and challenges have been useful for accountability purposes, such as required reports to Congress. Moreover, it has been useful for program management and oversight, such as identifying grantees’ technical assistance needs and ensuring

compliance with federal and programmatic regulations and policies. To review currently approved PPRs under this generic, see: <https://>

www.reginfo.gov/public/do/PRAICList?ref_nbr=202206-0970-004.

Respondents: ACF funding recipients.

Annual Burden Estimates

ACF is requesting an increase in burden to reflect use over the past 3 years and anticipated use in the next 3 years.

Instrument	Total number of respondents	Total number of responses per respondent	Average burden hours per response	Total burden hours
Program Specific PPRs	800	2.3	5	9,200

Comments: The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; National Communication System for Runaway and Homeless Youth, Currently Operated by the National Runaway Safeline (NRS) Data Collection (New Collection)

AGENCY: Family and Youth Services Bureau, Administration for Children and Families, HHS.

ACTION: Request for public comment.

SUMMARY: The Family and Youth Services Bureau’s (FYSB) Runaway and Homeless Youth Division has a legislative requirement to fund a National Communication System, which is currently operated by the National Runaway Safeline (NRS). The NRS provides information, referral services, crisis intervention, and prevention

resources to vulnerable youth at risk of running away and/or becoming homeless and their families or legal guardians at no cost. When necessary, the NRS refers runaway and homeless youth to shelters, counseling, medical assistance, and other vital services. The NRS collects information from all contacts with youth and adults connecting with the NRS (i.e., parents, family members, legal guardians, service providers) on a voluntary basis to inform crisis services and develop an annual report on the information collected during calls, chats, emails, and forum posts from young people who reached out to the NRS’s crisis services.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: You can obtain copies of the proposed collection of information and submit comments by emailing infocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: The NRS is required to have a system for collecting and analyzing data to report on calls, emails, chat, texts, and online messages received as well as other information, such as prevention resources, referrals, demographics, and visitors to the NRS website. The NRS must submit monthly and semi-annual reports that includes the following:

- Number of calls received, answered, and missed.
- Number of chats, emails, and texts received; number of chats, emails, and texts answered; and number of chats, emails, and texts that were missed and did not receive a response, in which the users are youth in crisis, runaway youth, and youth experiencing homelessness.

- Number of parents, legal guardians, and service providers contacting the NRS and the type of resources, interventions, and technical support/ assistance requested and provided.

- Number and type of prevention materials disseminated to communities, especially to underserved populations.

- Number and type of unique visitors to the NRS’ website.

- Information on referrals provided and where youth were referred for services.

- Information on the callers’ or users’ demographics and where they were located when contacting the NRS.

- Information on the prevention materials developed and disseminated by the NRS.

- Information and analysis of the latest trends and their impact on runaway prevention.

The NRS will use two online forms, one form to collect relevant information disclosed during calls, emails, and forum posts and a second online form to collect information from chats. All data will be provided to FYSB in the aggregate and no personally identifiable data are collected.

The information collected will allow FYSB to better understand the types of services needed by youth contacting the NRS, as well as to identify outreach and prevention strategies to increase the visibility of the NRS services among youth experiencing housing instability, homelessness, youth who runaway, and youth in crisis. Additionally,

The findings from this data collection will be included in a required Report to Congress to provide accurate information on the status of youth in crisis and runaway and homeless youth nationwide.

Respondents: Youth and adults who contact the National Runaway Safeline during calls, chats, emails, and forum posts.
