Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-0361.

Project: Center for Substance Abuse Prevention's (CSAP) "Talk. They Hear You." Screen 4 Success Instruments and Consent Form. (Office of Management [OMB] No. 0930-XXXX)

SAMHSA is requesting approval for its "Talk. They Hear You." media campaign's "Screen 4 Success" Consent Form and Screener. The "Talk. They Hear You." campaign aims to reduce underage drinking and substance use among youths under the age of 21 by providing parents and caregivers with information and resources they need to address alcohol and other drug use with their children early. The new "Talk. They Hear You." campaign's "Screen 4 Success" mobile app is an interactive tool to help parents and caregivers, educators, and communities get informed, be prepared, and take action to prevent underage drinking and other drug use. Specifically, it provides these groups with the ability to self-screen and self-manage referrals as a prevention service. Parents have a significant influence in their children's decisions to experiment with alcohol and other drugs.

SAMHSA and its Centers will use the data for annual reporting: (1) reporting results of the campaign's performance, (2) evaluating the effectiveness of the application and its utility and (3) assessing the accountability and performance of this component and the overall media campaign, including a focus on health equity.

The tools reflect CSAP's desire to elicit pertinent participant level data that can be used to not only guide future programs and practice, but also respond to stakeholder, congressional and

agency inquiries. For a more in-depth review of the screener and consent form, please see Attachments A-C.

This information will be used by SAMHSA to help improve the accountability and performance of its "Talk. They Hear You." program and social media campaign (each of which refer to this component and other resources). Specifically, the program evaluators will use the information collected through this request to generate annual performance reports that assess the impact of this SAMHSA program outcomes. This information will also be used to inform recommendations regarding future programming should the program continue to be funded.

The information collected from these forms is captured by the "Screen 4 Success" mobile app and made available to the "Talk. They Hear You." media campaign evaluators in real time. Approval of this data collection activity will allow SAMHSA to continue to assist those under the age of 21, and parents to screen themselves, the parents and client in identifying individuals that may need further assessment or intervention for the alcohol use, drug use, suicide prevention, and other mental health needs. Many of these issues occur at the same time in youth and require referral to co-occurring programs so there is significant value in screening quickly for all of them at the same time. By implementing this screener, we hope to be able to divert individuals who might be at risk of alcohol dependence and these other problems to effective programs and services.

SAMHSA tool	Number of respondents	Responses per respondent	Total number of responses	Burden hours per response	Total burden hours	Estimated hourly wage ¹	Total hour cost
Parent/Guardian Consent	100,000	1	100,000	0.04	10,000	\$ 26.92	\$107,680
Youth Assent Forms	100,000	1	100,000	0.04	10,000	26.92	107,680
Screener	100,000	1	100,000	0.30	60,000	26.92	807,600
CSAP Total	300,000	300,000	38,000	26.92	1,022,960

¹ The information is collected via and online application and does not require project staff to administer the consent or screener. The application has internal checks to ensure appropriate completion. The hourly wage estimate is \$26.92 based on the Occupational Employment and Wages, Mean Hourly Wage Rate for 19-4061 Social Science Research Assistants as of 10/21/2021. Project: Harm Reduction Grant Program Target Setting and Quarterly Aggregate Reporting Instrument—(OMB No. 0930–XXXX)

SAMHSA is requesting approval for its Harm Reduction Grant Program Annual Target Setting and Aggregate Quarterly Reporting Instrument. In developing the instrument, we sought to elicit programmatic information that demonstrates impact at the program level aligned with the Notice of Funding Opportunity. In this way, data from the Government Performance and Results Act (GPRA) tool can be used to assess resource allocation and to delineate who we serve, how we serve them, and program impacts. The tool reflects SAMHSA’s desire to elicit pertinent program level data that can be used to not only guide future programs and practice, but to also respond to stakeholder, congressional, and agency enquiries.

The information collected from these forms is to be entered and stored in SAMHSA’s Performance Accountability and Reporting System (SPARS), which is a real-time, performance management system that captures information on the substance misuse treatment and mental health services delivered in the United States. Approval of this information collection will allow SAMHSA to

continue to meet GPRA reporting requirements that quantify the effects and accomplishments of its discretionary grant programs, which are consistent with OMB guidance.

SAMHSA and its Centers will use the data for annual reporting required by the Government Performance and Results Act Modernization Act of 2010 (GPRMA). GPRMA requires that SAMHSA’s fiscal year report include actual results of performance monitoring for the three preceding fiscal years. The additional information collected through this process will allow SAMHSA to (1) report results of these performance outcomes; (2) maintain consistency with SAMHSA-specific performance domains, and (3) assess the accountability and performance of its discretionary and formula grant programs.

The instruments have been revised to reflect comments received during the 60-Day **Federal Register** comment period. Changes include replacing reporting individuals being served with service encounters throughout the instruments. This will ease burden on respondents. Additionally, adjustments have been made in the language related to reporting age and race/ethnicity.

TABLE 1—ESTIMATES OF ANNUALIZED HOUR BURDEN

SAMHSA tool	Number of respondents	Responses per respondent	Total number of responses	Burden hours per response	Total burden hours	Hourly wage estimate	Total hour cost
Target Setting Tool	25	1	25	0.6	15	¹ \$24.78	\$372
Aggregate Program Level Tool ²	25	4	100	0.6	60	24.78	1,487
Total	25	125	75	1,859

¹ The hourly wage estimate is based on the Occupational Employment and Wages, Mean Hourly Wage Rate for 21–1011 Substance Abuse and Behavioral Disorder Counselors = \$24.78/hr. (<http://www.bls.gov/oes/current/oes211011.htm>. Accessed on May 11, 2021.)

² This is an aggregate tool and collection is based on encounters.
