SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, DHS/FEMA proposes to modify an existing DHS system of records titled, “DHS/FEMA–004 Non-Disaster Grant Management Information Files System of Records”. The goal of FEMA's non-disaster related grant programs is to provide funding to enhance the capacity of state, local, tribal, and territorial emergency responders to prevent, respond to, and recover from a weapon of mass destruction terrorism incident involving chemical, biological, radiological, nuclear, explosive devices, and cyber-attacks. FEMA's non-disaster grant programs currently provide funds to all 50 states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Commonwealth of Northern Mariana Islands, Guam, the U.S. Virgin Islands, certain types of non-profit organizations, and some private entities. FEMA non-disaster related grant programs are directed at a broad spectrum of state and local emergency responders, including firefighters, emergency medical services, emergency management agencies, law enforcement, and public officials.
