**Petition for Extension of Waiver of Compliance**

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on June 1, 2022, Arizona Eastern Railway Company (AZER) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 232, Brake System Safety Standards for Freight and Other Non-passenger Trains and Equipment; End of Train Devices. The relevant FRA Docket Number is FRA-2002-13251.

Specifically, AZER seeks to extend relief that permits movement from the Freeport-McMoRan Copper & Gold's mining facility near Claypool, Arizona, to a location between mileposts (MPs) 1229.0 and 1227.6 on AZER trackage, where the required inspections (a pre-departure inspection and Class 1 initial terminal air brake test and inspection) are performed. Additionally, AZER seeks to extend relief formerly granted in FRA Docket Number FRA-2017-0100, which permits movement from Clifton Yard in Clifton, Arizona, to South Siding near MP 1210.0, where the required inspections are performed. FRA is combining the requests and relief from both dockets and considering them under the originally assigned docket number for the relief in Claypool, Arizona, Docket Number FRA-2002-13251. In support of its request, AZER states that railroad operations have remained the same since the original waivers were granted, and rail traffic volumes have continuously increased, supporting the need for this relief.
