Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant

rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would modify the VOR Federal airway route structure in the eastern United States to maintain the efficient flow of air traffic.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this proposed rule. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 to remove VOR Federal Airways V-31, V-146, V-447, and V-475. The routes would be removed in conjunction with VORs

being decommissioned under the VOR MON Program. This program aims to improve the efficiency of the National Airspace System by transitioning from ground based navigation systems to satellite based navigation. The proposed changes are described below.

V-31: V-31 currently extends from Patuxent River, MD, to the intersection of the Rochester, NY, 279° and the Buffalo, NY 023° radials. The FAA proposes to remove the entire route in support of the VOR MON Program. A planned United States Area Navigation (RNAV) route, T-445, would overlay segments of V-31.

V-146: V-146 currently extends from Albany, NY, to Nantucket, MA. The FAA proposes to remove the entire route in support of the VOR MON Program. An extension to RNAV route T-291 would overlay a segment of V-146.

V-447: V-447 currently extends from Cambridge, NY, to Sherbrooke, PQ, Canada. The FAA proposes to remove the entire route in support of the VOR MON Program. In addition, NavCanada has decommissioned the Sherbrook, PQ, VOR which was the end point of the route.

V-475: V-475 currently extends from LaGuardia, NY, to Providence, RI. This route is no longer being utilized. Therefore, no RNAV overlay is planned.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airways listed in this document would be subsequently removed from FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

SUPPLEMENTARY INFORMATION:

I. Background

On June 1, 2022, the National Indian Gaming Commission published a proposed rule to amend the Agency’s audit standards regulations. The proposed rule will amend the regulations to eliminate the Commission waiver requirement for reviewed financial statements and allow all operations grossing less than \$2 million in the previous fiscal year to submit reviewed financial statements provided that the tribe or tribal gaming regulatory

authority (TGRA) permits the gaming operation to submit reviewed financials. The proposed amendment to the rule will also create a third tier of financial reporting for charitable gaming operations with annual gross revenues of \$50,000 or less where, if permitted by the tribe, a charitable gaming operation may submit financial information on a monthly basis to the tribe or the TGRA and in turn, the tribe or TGRA provides an annual certification to the NIGC regarding the charitable gaming operation’s compliance with the financial reporting. The proposed amendment also adds a provision clarifying that the submission of an adverse opinion does not satisfy the regulation’s reporting requirements.

II. Reopening of Comment Period

At the request of interested parties, the Commission is reopening the comment period until August 1, 2022.

Six Mile Munitions Storage Area on Joint Base Elmendorf-Richardson, Alaska; Knik Arm; Restricted Area

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is proposing to revise its regulations to establish a restricted area within the explosive arc of Six Mile Munitions Storage Area (MSA) on Joint Base Elmendorf-Richardson (JBER). The United States Air Force—Pacific Air Command (USAF PACAF) requested establishment of a restricted area which would be located within the navigable waters of Knik Arm which are a part of the Six Mile MSA explosive arc. The proposed restricted area would extend from the shoreline to the outward limits of the arc. Establishment of the restricted area would prohibit all watercraft navigations and individuals from entering the explosive arc area of the Six Mile MSA at all times except for authorized vessels and individuals in
