[Docket No. FWS-R4-ES-2022-0089; FXES11130400000-223-FF04EF4000]

Renewal of an Incidental Take Permit for Florida Key Deer and Other Protected Species on Big Pine Key and No Name Key, Monroe County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service, announce receipt of an application from Monroe County (applicant) for a renewal of incidental take permit (ITP) under the Endangered Species Act. If granted, the expiration date of the existing ITP, which authorizes take of the Florida Key deer, the Lower Keys marsh rabbit, and the eastern indigo snake incidental to commercial and residential construction in Monroe County, Florida, would be extended for an additional 3 years. The applicant is seeking an extension of the ITP expiration date from June 30, 2023, to June 30, 2026. The application for renewal does not include a request to increase the amount of take authorized by the ITP or to modify the covered activities under the ITP and the associated habitat conservation plan (HCP). We request public comment on the application, which includes the applicant's existing HCP and the Service's preliminary determination that this ITP renewal qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before August 15, 2022.

ADDRESSES:

Obtaining Documents: You may obtain copies of the documents online in Docket No. FWS-R4-ES-2022-0089 at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from Monroe County (applicant) for renewal of incidental take permit (ITP) TE083411-0 under the Endangered Species Act by extending the permit expiration date by 3 years. The ITP authorizes take of the Florida Key deer (*Odocoileus virginianus clavium*), the Lower Keys marsh rabbit (*Sylvilagus palustris hefneri*), and the eastern indigo snake (*Drymarchon corais couperi*), via destruction of these species' feeding, breeding, and sheltering habitat incidental to commercial and residential construction (covered activity). The renewal of the ITP would not change the amount of covered area, the covered activity, or the amount or type of take or the species covered by the HCP and permit. The applicant's mitigation for the incidental take of the species also would not change.

The requested extension will allow the term of the ITP to match the County's Rate of Growth Ordinance (ROGO) timeframe (*i.e.*, the timeframe for the County to issue building permits for new houses commensurate with the ability to safely evacuate the population in the event of a major storm). On January 22, 2020, the Monroe County Board of County Commissioners (BOCC) extended the timeframe for issuing the remaining building permits to match the ROGO for an additional 3 years, from 2023 to 2026, to provide the County additional time to distribute ROGO allocations while the new hurricane evacuation model is run. The extension also would allow the County to implement other strategies to help transition land into public ownership, reducing the potential for fifth amendment takings claims and addressing the overall future build-out of the Florida Keys.

We request public comment on the application, which includes the applicant's HCP and the Service's preliminary determination that renewal of the ITP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act
