k. This application has been accepted for filing and is now ready for environmental analysis.

l. *The proposed project would consist of:* (1) an existing 140-foot-long, 9-foot-high masonry dam that impounds a 1.46-acre reservoir with a gross volume of 5.3 acre-feet at the normal pool elevation of 320.0 feet North American Vertical Datum of 1988 (NAVD88); (2) a new 12.5-foot-wide, 4-foot-high intake rack with 0.75-inch spacing to prevent river debris from entering the intake; (3) a new 14-foot-long, 12-foot-wide, and 10-foot-high reinforced concrete intake structure, mostly constructed below-grade and upstream of the dam on the west side of the river; (4) a new 70-foot-long, 3-foot-diameter penstock; (5) a new eel ramp for the upstream passage of American eel and sea lamprey; (6) an existing 3-foot-wide and 0.9-foot-high low-flow notch and 4.6-foot-deep

plunge pool for downstream fish passage; (7) an existing 33-foot-wide, 8-foot-long, 14-foot-high powerhouse with one new 20-kilowatt (kW) turbine-generator unit; (8) two new 100-foot-long underground utility trenches (containing conduits for utility power, generator power, and communications) between the powerhouse and control equipment shed; (9) a new draft tube that connects the exit of the turbine to the tailrace; (10) a transmission line connecting the project to the distribution system owned by the Appalachian Power Company; and (11) appurtenant facilities. The project is estimated to generate an average of 111,000 kW-hours annually. The applicant proposes to operate the project in a run-of-river mode.

m. On February 16, 2022, Let It Go filed a request to waive scoping to expedite the exemption process, and received support for the waiver from the U.S. Fish and Wildlife Service, Virginia Marine Resources Commission, Virginia Department of Historic Resources, and the U.S. Army Corps of Engineers. Due to the small size and location of this project, the applicant's close coordination with federal and state agencies during preparation of the application, and studies completed during pre-filing consultation, we intend to waive scoping. Based on a review of the application and resource agency consultation letters including comments filed to date, Commission staff does not anticipate that any new issues would be identified through additional scoping. Based on the issues identified during the pre-filing period, staff's National Environmental Policy Act (NEPA) document will consider the

potential effects of project construction and operation on geology and soils, aquatic, terrestrial, threatened and endangered species, recreation, and cultural and historic resources.

A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit a development application. A notice of intent must be served on the applicant(s) named in this public notice.
