Title: Container vessel imports and exports.

OMB Approval Number: 3072-XXXX.

Abstract: The Ocean Shipping Reform Act of 2022 (OSRA 2022) includes the following language, "The Federal Maritime Commission shall publish on its website a calendar quarterly report that describes the total import and export tonnage and the total loaded and empty 20-foot equivalent units per vessel (making port in the United States, including any territory or possession of the United States) operated by each ocean common carrier covered under this chapter. Ocean common carriers under this chapter shall provide to the Commission all necessary information, as determined by the Commission, for completion of this report." 46 U.S.C. 41110. The FMC will request information on tonnage and 20-foot equivalent units from each identified common carrier on a monthly basis. The information will be used to compile and publish a quarterly report on total import and export tonnage and total loaded and empty 20-foot equivalent units per vessel operated by common carriers. The universe will be carriers that transport 1,500 or more 20-foot equivalent units per month (total across imports and exports, regardless of whether they are laden or empty) in or out of U.S. ports in international common carriage. The Commission estimates that approximately 70 of the 154 currently registered vessel-operating common carriers transport 1,500 or more 20-foot equivalent units per month, totaling over 99 percent of imported and exported containerized cargo.

Current Actions: This information being submitted contains a new data collection.

Type of Review: New data collection.

Needs and Uses: The Commission will use collected data to publish a quarterly report as directed by OSRA 2022.

Frequency: This information will be collected monthly.

Type of Respondents: The universe will be carriers who transport 1,500 20-foot equivalent units or more per month (total across imports and exports, regardless of whether they are laden) in or out of the U.S. in international common carriage.

Number of Annual Respondents: The Commission estimates an annual respondent universe of 70. The Commission expects the estimated number of annual respondents to remain at 70 in the future.

Estimated Time Per Response: The time per response is estimated at 80 person-hours for reporting.

Total Annual Burden: For the 70 annual respondents, the burden is calculated as 70×80 hours = 5,600 hours.
