[Project No. 2336–094]

Georgia Power Company; Notice of Intent to Prepare an Environmental Assessment

On January 3, 2022, Georgia Power filed an application for a new, major license for the 18-megawatt Lloyd Shoals Hydroelectric Project (Lloyd Shoals Project; FERC No. 2336). The Lloyd Shoals Project is located on the Ocmulgee River in Butts, Henry, Jasper, and Newton Counties, Georgia. The project does not occupy federal lands.

In accordance with the Commission's regulations, on May 26, 2022, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to relicense the Lloyd Shoals Project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by Commission staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	January 2023 ¹ .
Comments on EA	February 2023.
