III. What is the Agency’s authority for taking this action?

FIFRA section 6(f)(1) (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. EPA will provide a 30-day comment period on the proposed requests. Thereafter, the EPA Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because the Agency has identified no significant potential risk concerns associated with these pesticide products, upon cancellation of the products identified in Table 1 of Unit II., EPA anticipates allowing registrants to sell and distribute existing stocks of these products until January 15, 2023, or the date of that the cancellation notice is published in the **Federal Register**, whichever is later. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II., except for export consistent with FIFRA section 17 or for proper disposal. Persons other than registrants will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved

labeling on, or that accompanied, the canceled products.

Authority: 7 U.S.C. 136 *et seq.*

This is a request to reinstate a previously approved ICR. Public comments were previously requested via the **Federal Register** on March 1, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments. The ICR, a copy of which is in the docket and briefly summarized in this document, describes the covered information collection activities, along with the Agency's estimated burden and cost. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain

in detail the information that the EPA will be collecting, are available in the docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. Abstract: This ICR, which seeks to reinstate a previously approved ICR, covers the information collection activities associated with the Agency's evaluation of private sector standards and ecolabels under the updated Framework for the Assessment of Environmental Performance Standards and Ecolabels for Federal Purchasing. EPA's goal in developing this Framework is to create a transparent, fair, and consistent approach to evaluate product environmental performance standards and ecolabels for inclusion in EPA's Recommendations of Specifications, Standards, and Ecolabels for Federal Purchasing ("Recommendations"). The Recommendations help federal purchasers identify and procure environmentally preferable products and services which in turn, help to meet their sustainability goals and requirements.

Form Numbers: EPA Form No. 9600-038.

Respondents/affected entities: Environmental performance standards developers and ecolabels.

Respondent's obligation to respond: Voluntary. See 15 U.S.C. 3701 and 42 U.S.C. 13103(b)(11).

Estimated number of respondents: 100 (total).

Frequency of response: On occasion.

Total estimated burden: 707 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$45,322 (per year), which includes an estimated cost of \$0 for capital investment or maintenance and operational costs.

Changes in the estimates: This is a reinstatement, so there is currently no approved burden and costs. As described in more detail in the ICR, the program has been modified based on the previously approved activities associated with the 2016 pilot, including changes to the criteria/questions, Framework submission template, and the process for respondents. With this ICR, EPA is requesting approval for the average respondent burden that is estimated to be 8.5 hours per response, based on an average 12 hours for respondents that

did not previously participate in the pilot and an average 5 hours for respondents that did previously participate in pilot.

Courtney Kerwin,

Director, Regulatory Support Division.
