restoration inspection of the NEXUS Gas Transmission Project (NEXUS Project) right-of-way in Columbiana, Stark, Summit, Wayne, Medina, Lorain, and Erie Counties, Ohio. The purpose of the inspection is to assess the existing condition of right-of-way restoration along the eastern end of the NEXUS Project and NEXUS Gas Transmission, LLC's (NEXUS) compliance with the restoration conditions of the Commission's August 25, 2017 Order Issuing Certificate. NEXUS representatives will accompany the Office of Energy Projects staff during the inspection and will view the right-ofway from public access points and where landowners have granted NEXUS access outside of the permanent right-ofway easement. Landowners requesting Commission staff inspection of their properties within the above-mentioned counties must contact either the Office of External Affairs at (866) 208-FERC or email DG2E@ferc.gov no later than August 18, 2022 and provide their own transportation during the inspection.

Dated: August 10, 2022.

## Federal Energy Regulatory Commission

[Project No. 3253-015]

# Mad River Power Associates; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the relicense application for the Campton Hydroelectric Project No. 3253 (project), located on the Mad River in Grafton County, New Hampshire, and has prepared an Environmental Assessment (EA) for the project. The project occupies approximately 0.08 acre of federal land administered by the U.S. Forest Service.

The EA contains staff's analysis of the potential environmental effects of the project and concludes that licensing the project, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (http://www.ferc.gov) using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov, toll-free at (866) 208–3676, or for TTY, (202) 502–8659.

You may register online at https://ferconline.ferc.gov/eSubscription.aspx to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 45 days from the date of this notice. The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at https://ferconline.ferc.gov/ eFiling.aspx. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at https://ferconline. ferc.gov/QuickComment.aspx. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. In lieu of electronic filings, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P-3253-

For further information, contact Robert Haltner at (202) 502–8612, or by email at *Robert.Haltner@ferc.gov*.

Dated: August 10, 2022.

# Federal Energy Regulatory Commission

[Docket No. UL22-1-000]

Consolidated Hydro New York, LLC; Notice of Pending Jurisdictional Inquiry and Solicting Comments, Protests, and Motions To Intervene

On May 4, 2022, the Federal Energy Regulatory Commission (Commission) received a request from U.S. Department of the Interior's Fish and Wildlife Service (FWS) for a jurisdictional determination for the unlicensed Winnie's Reef Dam. Commission staff's review of Consolidated Hydro New York, LLC's final license application for the Victory Mills Hydroelectric Project (FERC Project No. 7153) found information stating that Winnie's Reef Dam is operated to maintain the water levels of Saratoga Lake. In addition, comments on the license application for the Victory Mills Project and in FWS's jurisdictional request state that Winnie's Reef Dam controls flows downstream in Fish Creek and may provide headwater benefits for both the Victory Mills Project (approximately 5 miles downstream of Winnie's Reef Dam) and the Schuylerville Project No. 8606 (approximately 0.6 miles downstream from Victory Mills Project). As a result, the Commission is beginning a review of the Winnie's Reef Dam to determine whether it is subject to the Commission's mandatory licensing jurisdiction under section 23 of the Federal Power Act (FPA).

Pursuant to section 23(b)(1) of the FPA, 16 U.S.C. 817(1), a non-federal hydroelectric project must be licensed (unless it has a still-valid pre-1920 federal permit) if it: (1) is located on a navigable water of the United States, (2) occupies lands or reservations of the United States, (3) uses the surplus water or water power from a government dam; or (4) is located on a stream over which Congress has Commerce Clause jurisdiction, is constructed or modified on or after August 26, 1935, and affects the interests of interstate or foreign commerce.

Section 4(e) of the FPA authorizes the Commission to issue licenses for hydroelectric project works, including reservoirs. Section 23(b)(1) of the FPA requires (with exceptions not relevant here) a Commission license for the operation of non-federal hydroelectric project works, including reservoirs, that are used to generate electric power on any navigable waters of the United States. Storage reservoirs that are not directly connected to other project
