SUPPLEMENTARY INFORMATION:

Background

The Project is located adjacent to the Historic Customs House at 340 East 1st Street, Calexico, California. The Project is proposed to provide a temporary

pedestrian processing facility for use during the demolition of existing structures and construction of the new processing building while ensuring continued services to those utilizing the international crossing between the United States of American and Mexico. The temporary facility is anticipated to be constructed on Heffernan Road, south of East 1st street, to the west of the Historic Customs House. The facility will require the acquisition of Heffernan Road, to the south of East 1st Street. The building will be approximately 8,804 square feet and include a fire lane to the west, pedestrian ramps leading to/from the building, and pedestrian pick-up and drop-off areas at the north side of the building. The interior building will include wait areas, administrative offices, property storage interview rooms, inspection areas, processing areas, and restrooms.

This Draft Environmental Assessment was prepared pursuant to the National Environmental Policy Act of 1969 (NEPA)(Pub. L. 91–190) and the Council on Environmental Quality Regulations implementing NEPA.

Alternatives Under Consideration

The EA will consider one Action Alternative (the Proposed Action) and the No Action Alternative. The Action Alternative would consist of the construction of the temporary processing facility and associated infrastructure. The Project is proposed to provide a temporary pedestrian processing facility for use during the demolition of existing structures and construction of the new processing building while ensuring continued services to those utilizing the international crossing between the United States of American and Mexico. The temporary facility is anticipated to be constructed on Heffernan Road, south of East 1st street, to the west of the Historic Customs House. Even though the facility is temporary, the project will require the permanent acquisition of Heffernan Road, to the south of East 1st Street, removing the parking/pick up area. The building will be approximately 8,804 square feet and include a fire lane to the west, pedestrian ramps leading to/from the building, and pedestrian pick-up and drop-off areas at the north side of the building. The interior building will include wait areas, administrative offices, property storage interview rooms, inspection areas, processing areas, and restrooms. Since the facility is temporary, there would be no change in personnel staffing at this port of entry. Construction is likely to impact parking and loading/unloading

merchandise for the retail facility to the west of the proposed facility, as well as traffic flow along East 1st Street during construction.

Under the No Action Alternative the construction of the temporary facilities, construction of the ramp, and renovations within the existing Historic Customs House would not occur.

Russell Larson,

*Director, Portfolio Management Division,
Pacific Rim Region, Public Buildings Service.*

SUPPLEMENTARY INFORMATION:

Proposed Project

“Consumer Assessment of Healthcare Providers and Systems (CAHPS) Home and Community Based Services (HCBS) Survey Database”

AHRQ requests that OMB reapprove AHRQ’s collection of information for the AHRQ Consumer Assessment of Healthcare Providers and Systems (CAHPS) Database for Home and Community-Based Services: OMB

Control number 0935–0245, expiration October 31, 2022.

The CAHPS Home and Community-Based Services (HCBS) Survey Database consists of data from the HCBS CAHPS Survey, which is the first cross-disability survey of home and community-based service beneficiaries’ experience receiving long-term services and supports. It is designed to facilitate comparisons across state Medicaid HCBS programs throughout the country that target adults with disabilities, *e.g.*, including older adults, individuals with physical disabilities, persons with developmental or intellectual disabilities, those with acquired brain injury and persons with severe mental illness.

The HCBS CAHPS Survey was developed by the Centers for Medicare & Medicaid Services (CMS) for voluntary use by state Medicaid programs, including both fee-for-service HCBS programs as well as managed long-term services and supports (MLTSS) programs. States with adequate sample sizes may consider using survey metrics in value-based purchasing initiatives.

The HCBS CAHPS Database serves as a primary source of data available to states, agency programs and researchers to help answer important questions related to beneficiary experiences. AHRQ, through its contractor, collects and makes available de-identified survey data, enabling HCBS programs to identify areas where quality can be improved.

Aggregated HCBS Database results are made publicly available on AHRQ’s CAHPS website. Technical assistance is provided by AHRQ, through its contractor, at no charge to programs, to facilitate the access and use of these materials for quality improvement and research. Technical assistance is also provided to support HCBS CAHPS data submission.

The HCBS CAHPS Database supports AHRQ’s goals of promoting improvements in the quality and patient-centeredness of health care in home or community-based care settings. This research has the following goals:

1. Improve care provided by individual providers and state programs.
2. Offer several products and services, including providing survey results presented through the AHRQ Data Tools website, summary chartbooks, custom analyses, private reports and data for research purposes.
3. Provide information to help identify strengths and areas with potential for improvement in patient care.
