

Area	Extended falconry dates
Southern San Joaquin Valley Zone	Feb. 25.
Balance of State Zone	Feb. 25.
Canada geese, cackling geese, and white-fronted geese:	
Southern Zone (4)	Feb. 25.
Light geese:	
Southern Zone (4)	Feb. 25.
<i>New Mexico:</i>	
Doves:	
North Zone	Nov. 30–Dec. 4 & Dec. 21–Jan. 1.
South Zone	Oct. 29–Nov. 5 & Nov. 22–Nov. 30.
<i>Oregon:</i>	
Doves:	
Zone 1	Oct. 1–Nov. 14 & Dec. 15–Dec. 16.
Zone 2	Oct. 31–Dec. 16.
Band-tailed pigeons (5)	Sept. 1–Sept. 14 & Sept. 24–Dec. 16.
<i>Utah:</i>	
Doves	Oct. 31–Dec. 16.
Band-tailed pigeons	Oct. 31–Dec. 16.
<i>Washington:</i>	
Doves	Oct. 31–Dec. 16.
Ducks, mergansers, coots, and dark geese:	
East Zone	Oct. 1 & Feb. 4.
West Zone	Sept. 24 & Feb. 4.
Light geese and brant	Feb. 4.
<i>Wyoming:</i>	
Doves	Nov. 30–Dec. 16.
Sora and Virginia rails	Nov. 10–Dec. 16.
Ducks, mergansers, and coots	Sept. 17–Sept. 18.

- (1) In *Montana*, the limits are 2 daily and 6 in possession.
- (2) In *New Mexico*, the limits for sandhill cranes are 3 daily and 6 in possession.
- (3) In *Texas*, shooting hours/hawking hours: ½ hour before sunrise except as otherwise restricted by State regulations.
- (4) In *California*, in the Imperial County Special Management Area, there is no extended falconry season.
- (5) In *Oregon*, no more than 1 pigeon daily in bag or possession.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 220223–0054]

RTID 0648–XC265

Fisheries of the Exclusive Economic Zone off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of Pacific cod from vessels using jig gear, trawl catcher vessels, and catcher vessels greater than or equal to 60 feet (18.3 meters (m)) length overall (LOA) using hook-and-line gear to catcher vessels less than 60

feet (18.3 m) LOA using hook-and-line or pot gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the 2022 total allowable catch (TAC) of Pacific cod to be harvested.

DATES: Effective August 16, 2022, through 2400 hours, Alaska local time (A.l.t.), December 31, 2022.

FOR FURTHER INFORMATION CONTACT: Krista Milani, 907–581–2062.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2022 Pacific cod TAC specified for vessels using jig gear in the BSAI is 804 metric tons (mt) as established by the final 2022 and 2023 harvest specifications for groundfish in the

BSAI (87 FR 11626, March 2, 2022) and reallocation (87 FR 18289, March 30, 2022).

The 2022 Pacific cod TAC specified for trawl catcher vessels in the BSAI is 29,655 metric tons (mt) as established by the final 2022 and 2023 harvest specifications for groundfish in the BSAI (87 FR 11626, March 2, 2022).

The 2022 Pacific cod TAC specified for catcher vessels greater than or equal to 60 feet (18.3 m) LOA using hook-and-line gear in the BSAI is 267 mt as established by the final 2022 and 2023 harvest specifications for groundfish in the BSAI (87 FR 11626, March 2, 2022) and reallocation (87 FR 18289, March 30, 2022).

The 2022 Pacific cod TAC allocated to catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear in the BSAI is 3,746 mt as established by final 2022 and 2023 harvest specifications for groundfish in the BSAI (87 FR 11626, March 2, 2022) and reallocation (87 FR 18289, March 30, 2022).

The Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that jig vessels will not be able to harvest 705 mt of the 2022

Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(1), trawl catcher vessels will not be able to harvest 800 mt of the 2022 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(9), and catcher vessels greater than or equal to 60 feet (18.3 m) LOA using hook-and-line gear will not be able to harvest 267 mt of the 2022 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(3).

Therefore, in accordance with § 679.20(a)(7)(iv)(C), NMFS apportions 705 mt of Pacific cod from the jig vessels to the annual amount specified for catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear. Also, in accordance with § 679.20(a)(7)(iii)(A), NMFS reallocates 800 mt from trawl catcher vessels, and 267 mt from the catcher vessels greater than or equal to 60 feet (18.3 m) LOA using hook-and-line gear to the annual amount specified for catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear.

The harvest specifications for 2022 Pacific cod included in final 2022 and 2023 harvest specifications for groundfish in the BSAI (87 FR 11626, March 2, 2022) and reallocation (87 FR 18289, March 30, 2022) is revised as follows: 99 mt to vessels using jig gear, 28,855 mt to trawl catcher vessels, 0 mt to catcher vessels greater than or equal to 60 feet (18.3 m) LOA using hook-and-line gear, and 5,518 mt to catcher vessels less than 60 feet (18.3 m) LOA using hook-and-line or pot gear.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest. This requirement is

impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would allow for harvests that exceed the originally specified apportionment of the Pacific cod TAC. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of August 15, 2022.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 16, 2022.

Kelly Denit,

*Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.*
