

State primacy program under the federal Safe Drinking Water Act (SDWA) by adopting regulations that effectuate the federal Phase II/V Chemical Contaminant Rules (Phase II/V) and the Arsenic Rule. The Environmental Protection Agency (EPA) has determined that Hawaii's revision request meets the applicable SDWA program revision requirements and the regulations adopted by Hawaii are no less stringent than the corresponding federal regulations. Therefore, EPA approves this revision to Hawaii's approved State primacy program. However, this determination on Hawaii's request for approval of a program revision shall take effect in accordance with the procedures described below in the **SUPPLEMENTARY INFORMATION** section of this notice after the opportunity to request a public hearing.

**DATES:** A request for a public hearing must be received or postmarked September 21, 2022.

**ADDRESSES:** Documents relating to this determination that were submitted by Hawaii as part of its program revision request are available for public inspection online at <https://health.hawaii.gov/sdwb/public-notices/>. **SUPPLEMENTARY INFORMATION:**

*Background.* EPA approved Hawaii's initial application for primary enforcement authority ("primacy") of drinking water systems on October 20, 1977 (42 FR 47244). Since initial primacy approval, EPA has approved various revisions to Hawaii's primacy program. For the revision covered by this action, EPA promulgated the Chemical Contaminant Rules, collectively referred to as the Phase II/V Rules, and the Arsenic Rule at 40 CFR Subparts B, C, and G. EPA promulgated the Phase II/V Rules in multiple phases, with Phase V promulgated on July 17, 1992 (57 FR 31776), and EPA promulgated the Arsenic Rule on January 22, 2001 (66 FR 6976). Under

the Phase II/V Rules, EPA regulates over 65 inorganic contaminants, volatile organic contaminants, and synthetic organic contaminants. Under the Arsenic Rule, EPA updated the maximum contaminant level for arsenic to better protect public health. EPA has determined that the Phase II/V and Arsenic Rule requirements were adopted into the Hawaii Administrative Rules in a manner that Hawaii's regulations are comparable to and no less stringent than the federal requirements. EPA has also determined that the State's program revision request meets all of the regulatory requirements for approval, as set forth in 40 CFR 142.12, including a side-by-side comparison of the Federal requirements demonstrating the corresponding State authorities, additional materials to support special primacy requirements of 40 CFR 142.16, a review of the requirements contained in 40 CFR 142.10 necessary for States to attain and retain primary enforcement responsibility, and a statement by the Hawaii Attorney General certifying that Hawaii's laws and regulations to carry out the program revision were duly adopted and are enforceable. The Attorney General's statement also affirms that there are no environmental audit privilege and immunity laws that would impact Hawaii's ability to implement or enforce the Hawaii laws and regulations pertaining to the program revision. Therefore, EPA approves this revision of Hawaii's approved State primacy program. The Technical Support Document, which provides EPA's analysis of Hawaii's program revision request, is available by submitting a request to the following email address: [R9dw-program@epa.gov](mailto:R9dw-program@epa.gov). Please note "Technical Support Document" in the subject line of the email.

*Public Process.* Any interested person may request a public hearing on this determination. A request for a public hearing must be received or postmarked before September 21, 2022 and addressed to the Regional Administrator of EPA Region 9, via the following email address: [R9dw-program@epa.gov](mailto:R9dw-program@epa.gov), or by contacting the EPA Region 9 contact person listed above in this notice by telephone if you do not have access to email. Please note "State Program Revision Determination" in the subject line of the email. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. If a timely request for a public hearing is made, then EPA Region 9 may hold a public hearing. Any request for a public hearing shall include the following

information: 1. The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; 2. A brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such hearing; and 3. The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

If EPA Region 9 does not receive a timely request for a hearing or a request for a hearing was denied by the Regional Administrator for being frivolous or insubstantial, and the Regional Administrator does not elect to hold a hearing on their own motion, EPA's approval shall become final and effective on September 21, 2022, and no further public notice will be issued.

1. *Title:* Transfer Agent Registration and Amendment Form.

*Form Number:* TA-1.

*Affected Public:* Private Sector, insured state nonmember banks and state savings associations.

*Burden Estimate:*

**SUMMARY OF ESTIMATED ANNUAL BURDEN**

[OMB No. 3064-0026]

Information collection description (obligation to respond)	Type of burden (frequency of response)	Number of respondents	Number of responses per respondent	Time per response (HH:MM)	Annual burden (hours)
1. Transfer Agent Registration 12 CFR 341.3 (Mandatory).	Reporting (Occasional) .....	1	1	01:15	1
2. Transfer Agent Amendment 12 CFR 341.4 (Mandatory).	Reporting (Occasional) .....	1	1	00:10	0
3. Transfer Agent Deregistration 12 CFR 341.5 (Mandatory).	Reporting (Occasional) .....	1	1	00:25	0
Total Annual Burden (Hours) .....	.....	.....	.....	.....	1

*General Description of Collection:* Section 17A(c) of the Security Exchange Act of 1934 (the Act) requires all transfer agents for securities registered under section 12 of the Act or, if the security would be required to be registered except for the exemption from registration provided by Section 12(g)(2)(B) or Section 12(g)(2)(G), to “fil[e] with the appropriate regulatory agency . . . an application for registration in such form and containing such information and documents . . . as such appropriate regulatory agency may prescribe as necessary or appropriate in furtherance of the purposes of this section.” In general, an entity performing transfer agent functions for a security is required to register with its appropriate regulatory agency (ARA) if the security is registered on a national securities exchange or if the issuer of the security has total assets exceeding

\$10 million and a class of equity security held of record by 2,000 persons or, for an issuer that is not a bank, BHC, or SLHC, by 500 persons who are not accredited investors. The Federal Reserve Board of Governors’ (Board) Regulation H (12 CFR 208.31(a)) and Regulation Y (12 CFR 225.4(d)), the OCC’s 12 CFR 9.20, and the FDIC’s 12 CFR part 341 implement these provisions of the Act. To accomplish the registration of transfer agents, Form TA-1 was developed in 1975 as an interagency effort by the Securities and Exchange Commission (SEC) and the agencies. The agencies primarily use the data collected on Form TA-1 to determine whether an application for registration should be approved, denied, accelerated or postponed, and they use the data in connection with their supervisory responsibilities. FDIC is revising this information collection to

include the burden associated with the reporting requirement related to the transfer agent deregistration form (Form TA-W) currently cleared under OMB Control Number 3064-0027. The intention is to create a combined ICR that covers both the transfer agent registration and amendment form, and the transfer agent deregistration form. This combined ICR will retain the Office of Management and Budget (OMB) number OMB No. 3064-0026. The FDIC plans to discontinue OMB No. 3064-0027 once the combined OMB No. 3064-0026 is approved. This action will streamline the ICR process and contribute to enhanced operational efficiency of the FDIC.

There is no change in the method or substance of the collection. The overall reduction in burden hours is the result of economic fluctuation. In particular, the decline in the estimated overall
