

Availability of Public Comments

You may submit comments by one of the methods shown under **ADDRESSES**. We will post on <https://www.regulations.gov> all public comments and information received electronically or via hardcopy. All comments received, including names and addresses, will become part of the administrative record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and the NEPA (42 U.S.C. 4371 *et seq.*) and its implementing regulations (40 CFR 1506.6; 43 CFR 46).

Lori Nordstrom,

Assistant Regional Director, Ecological Services.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX21ED00CPN00; OMB Control Number 1028–0119/Renewal]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; EROS Registration Service

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a renewal of an information collection.

DATES: Interested persons are invited to submit comments on or before September 28, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. Please provide a copy of your comments to the U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192, or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–0119 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact Ryan Longhenry by email at rlonghenry@usgs.gov, or by telephone at 605–594–6179. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA, we provide the general public and other Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on June 22, 2022 (87 FR 37356). No comments were received in response to this notice.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the

quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you may ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS proposes to collect general demographic information about public users who download products from USGS user interfaces. This information helps address Congressional, OMB, and DOI inquiries regarding common data uses and affiliations, along with other questions used to justify maintaining the free distribution of USGS land remote sensing data. The information collected in the database includes the names, affiliations, addresses, email addresses, and telephone numbers of individuals. The information is gathered to facilitate the reporting of demographic data for use of USGS applications. Demographic data is also used to make decisions on future functional requirements within the system.

The information is stored on an internal encrypted database. In some cases, contact information is required in order to notify the customer regarding data availability. Email information is also utilized for two-factor authentication. The registration system does not derive new data and does not create new data through aggregation.

PII is not used as search criteria. Access to the information is governed by the least privileged access methodology. Authorized individuals with specifically granted access to the Privacy Act data can retrieve only by account number or order number. Personal data is encrypted while stored in the database. Contact ID is generated when account is created.

Title of Collection: EROS Registration Service.

OMB Control Number: 1028–0119.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Federal Agencies, state, tribal, and non-government individuals who have requested USGS products from USGS distribution applications are covered in

this system. The system has only one category for individuals.

Total Estimated Number of Annual Respondents: Approximately 335,000 respondents on an annual basis.

Total Estimated Number of Annual Responses: Approximately 335,000 respondents on an annual basis.

Estimated Completion Time per Response: We estimate that it will take 2 minutes per response to submit the requested information.

Total Estimated Number of Annual Burden Hours: 11,167.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: One time.

Total Estimated Annual Non-hour Burden Cost: There are no "non-hour cost" burdens associated with this collection of information.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501, *et seq.*).

John M. Hahn,

Acting USGS EROS Center Director.

BILLING CODE 4338-11-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the National Marine Sanctuaries Act

On August 23, 2022, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Southern District of Florida in the lawsuit entitled *United States v. Utility Board of the City of Key West, Florida*, Civil Action No. 4:22-cv-10070-JLK.

The Consent Decree resolves claims against the Utility Board of the City of Key West, Florida (d/b/a Keys Energy Services), Michels Corporation, and Michels Power, Inc. for recovery of damages under the National Marine Sanctuaries Act, 16 U.S.C. 1443(a)(1), arising from utility work relating to Keys Energy Services Line 4 conducted near Rockland Key, Florida, between October 14 and December 20, 2017 that destroyed sea grasses in the Florida Keys National Marine Sanctuary. The proposed Consent Decree resolves the claim for \$1,800,000.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural

Resources Division, and should refer to *United States v. Utility Board of the City of Key West, Florida*, D.J. Ref. No. 90-5-1-1-12301. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the Consent Decree upon written request and payment of reproduction costs. Please mail your request and payment to:

Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$4.50 (25 cents per page reproduction cost) payable to the United States Treasury.

Lori Jonas,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Gamma Radiation Surveys

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before September 28, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Nora Hernandez by telephone at 202-693-8633, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: MSHA uses this information to evaluate the effectiveness of a mine operator's protection program in demonstrating compliance with the radiation standards. Gamma radiation occurs where radioactive materials are present. Natural sources include uranium and other radioactive elements found in rocks, soils, and ground water. Gamma radiation hazards may also be found near radiation sources in surface and underground mines operations using X-ray machines, weightometers, nuclear gauges and diffraction units. Such gauges contain radioactive materials and are mounted outside tanks, pipes, bins, hoppers or other types of vessels; gamma rays measure the level and density of liquids, slurries or solids.

Regulations 30 CFR 57.5047 requires records be kept of cumulative individual gamma radiation exposure to ensure that annual exposure does not exceed 5 Rems. It is intended to protect the health of workers in mines with radioactive ores. Currently, there are three radioactive ore mines in the United States: one active facility and two non-producing underground uranium mines. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 4, 2022 (87 FR 26374).
