Enforcement of the safety zone is necessary to protect the safety of life and property on the navigable waters immediately prior to, during, and immediately after this event. During each enforcement period, no person or vessel may enter the safety zone without permission of the Captain of the Port Detroit or his designated representative.

SUMMARY: The Coast Guard is establishing a temporary safety zone for all navigable waters of Gulf of Mexico within a 1,000-foot radius of a fireworks barge launching fireworks in South Padre Island, Texas. CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and

opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable. We must establish this safety zone by September 1, 2022 and lack sufficient time to provide a reasonable comment period and then consider those comments before issuing the rule.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be contrary to the public interest because immediate action is needed to respond to the potential safety hazards associated with a fireworks display.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034. The Captain of the Port Sector Corpus Christi (COTP) has determined that potential hazards associated with a fireworks display on September 1, 2022, will be a safety concern for anyone in the navigable waters of Gulf of Mexico within a 1,000-foot radius of a fireworks barge launching fireworks in South Padre Island, Texas. The purpose of this rule is to ensure safety of vessels and persons on these navigable waters in the safety zone during the fireworks show.

IV. Discussion of the Rule

This rule establishes a temporary safety zone from 9:00 p.m. through 10:00 p.m. on September 1, 2022. The fireworks barge will launch fireworks in position 26°5'11.86" N, 097°9'17.23" W. No vessel or person is permitted to enter the temporary safety zone during the effective period without obtaining permission from the COTP or a designated representative, who may be contacted on Channel 16 VHF-FM (156.8 MHz) or by telephone at 361-939-0450. The Coast Guard will issue Local Notices to Mariners, Safety Marine Information Broadcasts, and Broadcast Notice to Mariners via VHF-FM marine channel 16 about the zone.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and

Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, and duration of the safety zone. This safety zone covers a 1,000-foot radius of a fireworks barge in South Padre Island, Texas. The temporary safety zone will be enforced for a short period of only one hour on September 1, 2022. The rule does not completely restrict the traffic within a waterway and allows mariners to request permission to enter the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the temporary safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees

who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01 and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves establishment of a temporary safety zone for navigable waters of Gulf of Mexico within an 1,000-foot radius of a fireworks barge launching fireworks in position 26°5’11.86” N, 097°9’17.23” W, in South Padre Island, Texas. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards created by a fireworks display. It is categorically excluded from further review under paragraph L60(a) Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket where indicated under **ADDRESSES**.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protestors. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

Air Plans; Arizona; Revised Format for Materials Incorporated by Reference; Correcting Amendment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: On November 23, 2016, the Environmental Protection Agency (EPA) issued a final rule titled “Approval and Promulgation of Implementation Plans; State of Arizona; Revised Format for Materials Incorporated by Reference.” That publication inadvertently omitted an entry for a regulation approved as part of the Maricopa County portion of the Arizona State Implementation Plan (SIP) and contained certain other errors. The EPA is taking direct final action to correct this omission and to correct the other errors. The regulations affected by

this correcting amendment have all been previously submitted by the State of Arizona and approved by the EPA.

DATES: This rule is effective on October 31, 2022 without further notice unless the EPA receives adverse comments by October 3, 2022. If we receive such comments, we will publish a timely withdrawal in the **Federal Register** to notify the public that this direct final rule will not take effect.

I. Background

Each State has a SIP containing the control measures and strategies used to attain and maintain the national ambient air quality standards (NAAQS). The SIP is extensive, containing such elements as air pollution control regulations, emission inventories, monitoring networks, attainment demonstrations, and enforcement mechanisms.

On November 23, 2016 (81 FR 85038), the EPA revised the format for materials submitted by the State of Arizona that are approved by the EPA as part of the Arizona SIP and incorporated by reference (IBR) into the Code of Federal Regulations. In revising the format, we changed how we identify the contents of the applicable Arizona SIP from a paragraph format to a table format. The change can be seen by comparing the table format in the “identification of plan” section set forth at 40 CFR 52.120(c), (d) and (e) with the paragraph format in the original “identification of plan” section set forth at 40 CFR 52.152.

In the November 23, 2016 final rule, we made the following errors that we are correcting through this action:

- Inadvertent omission of an entry for Maricopa County Air Quality Department (MCAQD) Rule 34 (“Organic Solvents—Volatile Organic Compounds (VOC)”), which the EPA approved at 47 FR 19326 (May 5, 1982). Certain paragraphs of MCAQD Rule 34 have been superseded by EPA approval of more recent VOC rules for Maricopa County or have been rescinded, but paragraphs F, G, H, I, J and K of Rule 34 remain in the applicable SIP.¹ We are adding the appropriate entry to the table of approved rules for Maricopa County.
- Inadvertent errors in the entries for Pima County Department of Environmental Quality (PCDEQ) Rules 7A (“Emission Limitation, Fuel Burning Equipment—Sulfur Dioxide”) and 7B (“Emission Limitation, Fuel Burning Equipment—Nitrogen Oxides”), which the EPA approved at 42 FR 36998 (July 19, 1977). With respect to Rule 7A, we indicated correctly that paragraphs 2 through 5 had been disapproved, but inadvertently failed to identify paragraph 6 of Rule 7A as part of the

¹ The EPA approved the rescission of paragraphs A, D.1, E.1, E.3 and L of Rule 34 as proposed at 87 FR 7784 (February 10, 2022). Paragraphs B and C were superseded by approval of MCAQD Rule 331 (Solvent Cleaning) at 61 FR 3578 (February 1, 1996). Paragraph D.2 was superseded by approval of MCAQD Rule 333 (Petroleum Solvent Dry Cleaning) at 61 FR 3578 (February 1, 1996). Paragraph E.2 was superseded by approval of MCAQD Rule 335 (Architectural Coatings) at 57 FR 354 (January 6, 1992). Paragraph E.4 was superseded by approval of MCAQD Rule 336 (Surface Coating Operations) at 63 FR 6487 (February 9, 1998).
