[P–14803–001]

Klamath River Renewal Corporation; PacifiCorp; Notice of Availability of the Final Environmental Impact Statement for the Surrender, Decommissioning, and Removal of the Lower Klamath Hydroelectric Project

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for surrender of license and removal of project works for the Lower Klamath Hydroelectric Project No.

14803 and has prepared a final environmental impact statement (EIS).¹ The project is located on the Klamath River in Klamath County, Oregon, and in Siskiyou County, California. The project occupies approximately 400 acres of federal lands. These federal lands are administered by the U.S. Department of the Interior, Bureau of Land Management (BLM).

The final EIS contains staff evaluations of the applicant's proposal and the alternatives for surrender of the Lower Klamath Project. The final EIS documents the views of governmental agencies, non-governmental organizations, affected Indian Tribes, the public, the applicants, and Commission staff.

In this notice, we acknowledge the number of pages in this final EIS exceeds the final EIS page limits set forth in CEQ's Final Rule for proposals of unusual scope or complexity. Noting the scope and complexity of this proposal, the Director of the Office of Energy Projects, as our senior agency official, has authorized this page limit exceedance for the final EIS.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons with an opportunity to view and/or print the final EIS via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link.
