CFR Code of Federal Regulations  
DHS Department of Homeland Security

FR Federal Register  
NPRM Notice of proposed rulemaking  
§ Section  
U.S.C. United States Code

## II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because it is impracticable and contrary to the public interest. The Coast Guard did not receive necessary information from the event sponsor for this year's event until shortly before the event was supposed to be held. The Coast Guard has an existing safety zone for this recurring marine event at 33 CFR 165.786, Table to § 165.786, Item No. 9.1; however, the existing regulation only covers the event when it is scheduled on the third Saturday of September. The primary justification for this action is that the Coast Guard received final details of the event shortly before it was supposed to occur. Therefore, the Coast Guard lacks sufficient time to provide a reasonable comment period and then consider those comments before issuing the rule. It would be impracticable and contrary to the public interest to delay promulgating this rule, as it is necessary to protect the safety of participants, spectators, the public, and vessels transiting in the area.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable because the event is taking place on September 10, 2022, and immediate action is needed to respond to the potential safety hazards associated with this event.

## III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under the authority in 46 U.S.C. 70034. The Captain of the Port Key West (COTP) has determined that potential hazards associated with this open water swim event will be a safety concern for persons and vessels in the safety zone. This rule is needed to ensure the safety

of the event participants, the general public, vessels and the marine environment in the navigable waters within the safety zone during the Swim for Alligator Lighthouse open water swim event.

#### IV. Discussion of the Rule

This rule establishes a safety zone on September 10, 2022 for a period of 8.5 hours, from 7:30 a.m. to 4:00 p.m. The safety zone will cover all waters of the Atlantic Ocean, between Amara Cay, and Alligator Lighthouse, beginning at a point Latitude 24°54.82' N, longitude 080°38.03' W, thence to latitude 24°54.36' N, longitude 080°37.72' W, thence to latitude 24°51.07' N, longitude 080°37.14' W, thence to latitude 24°54.36' N, longitude 080°37.72' W, thence to point of origin at latitude 24°54.82' N, longitude 080°38.03' W. The event course begins and ends at Amara Cay Resort in Islamorada, Florida, and extends through Hawks Channel, with a turnaround at Alligator Lighthouse. Approximately 500 swimmers with kayak escorts and ten safety vessels are anticipated to participate in the event. The size and duration of the zone is intended to protect personnel, vessels, and the marine environment in these navigable waters during the open water swim. Persons and non-participant vessels are prohibited from entering, transiting through, anchoring in, or remaining within the safety zone without obtaining permission from the COTP Key West or a designated representative. If authorization to enter, transit through, anchor in, or remain within the safety zone is granted by the COTP Key West or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the COTP Key West or a designated representative. The Coast Guard will provide notice of the safety zone by Local Notice to Mariners, Broadcast Notice to Mariners, or by on-scene designated representatives.

#### V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

##### A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits.

This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, duration and available exceptions to the enforcement of the safety zone. The regulated area will impact small designated areas of the Atlantic Ocean between Islamorada, Florida, and the Alligator Lighthouse for only 9 hours and thus is limited in time and scope. Furthermore, the rule will allow vessels to seek permission to enter the zone. Non-participant persons and vessels may enter, transit through, anchor in, or remain within the regulated area during the enforcement periods if authorized by the COTP or a designated representative. Vessels not able to enter, transit through, anchor in, or remain within the regulated area without authorization from the COTP or a designated representative may operate in the surrounding areas during the 9 hour enforcement period. The Coast Guard will issue a Local Notice to Mariners and a Broadcast Notice to Mariners, allowing mariners to make alternative plans or seek permission to transit the zone.

##### B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the

person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

##### C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

##### D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

##### E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

### F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone lasting only 9 hours that will prohibit entry into the area being used by swimmers and safety craft for the Alligator Lighthouse swim. It is categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble.

### G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

#### Renewable Fuel Standard (RFS) Program: Alternative RIN Retirement Schedule for Small Refineries

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** EPA is finalizing an optional alternative renewable identification number (RIN) retirement schedule for small refineries under the Renewable Fuel Standard (RFS) program for the 2020 compliance year. Small refineries that elect to use the alternative RIN retirement schedule will have to fully comply with their 2020 RFS obligations—including any RIN deficits from 2019 carried forward into the 2020 compliance year—by February 1, 2024. EPA is taking this action because small refineries may need more time to plan for compliance with their RFS obligations given EPA’s delay in deciding small refinery exemption (SRE) petitions and setting the associated compliance deadlines.

**DATES:** This rule is effective on September 2, 2022.
