Row 1 (Market Power Analysis in New Applications for Market-based rates) will have 144 filings. Row 2 (Triennial market power analysis) will have 65 filings. Row 3 (Asset appendix addition to change in status reports) will have 149 filings. There are a total of 358 filings in Rows 1 through 3.

Currently, there are 2,729 sellers that would submit information into the relational database. At the time of implementation of Order No. 860, there were 2,647 sellers that would submit information into the relational database in the first year of implementation. Six institutional investors had FPA section 203(a)(2) blanket authorizations, which collectively owned approximately 110 upstream affiliates that themselves owned sellers. In the March Notice,⁸ the Commission estimated an average of four sellers affected for every upstream affiliate, equaling 440 total sellers during the first three years of implementation of Order No. 860.

FERC-919A Burden carryover explanation:

- RM16-17-000 Final Rule (Order No. 860) (Category 1, 2nd Year and Ongoing), as modified by Order of August 2021—to 814 hrs.)
- RM16-17-000 Final Rule (Order No. 860) (Category 2, 2nd Year and

Ongoing) as modified by Order of August 2021—to 6,154 hrs.)

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

[Docket No. IC22-18-000]

Commission Information Collection Activities (FERC-715); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC-715 (Annual Transmission Planning and Evaluation Report), which will be submitted to the Office of Management and Budget (OMB) for a review of the information collection requirements.

DATES: Comments on the collection of information are due October 11, 2022.

ADDRESSES: Send written comments on FERC-715 to OMB through www.reginfo.gov/public/do/PRAMain, Attention: Federal Energy Regulatory Commission Desk Officer. Please identify the OMB control number (1902-0171) in the subject line. Your comments should be sent within 30 days of publication of this notice in the **Federal Register**.

Please submit copies of your comments (identified by Docket No. IC22-18-000) to the Commission as noted below. Electronic filing through <http://www.ferc.gov> is preferred.

- *Electronic Filing:* Documents must be filed in acceptable native applications and print-to-PDF, but not in scanned or picture format.

- For those unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery.

SUPPLEMENTARY INFORMATION:

Title: FERC-715, Annual Transmission Planning and Evaluation Report.

OMB Control No.: 1902-0171.

Abstract: Section 213(b) of the Federal Power Act¹ instructs the Commission to require transmitting utilities² to submit information annually about potentially available transmission capacity and known constraints. Such information must be available to potential transmission customers, State regulatory authorities, and the public.

The Commission implements section 213(b) in accordance with the regulation at 18 CFR 141.300, which provides that the information collection applies to each transmitting utility that operates integrated transmission system facilities rated above 100 kilovolts (kV), and lists the following information that must be included in the annual submission:

- Contact information;
- Base case power flow data (if the respondent does not participate in the development and use of regional power flow data);
- Transmission system maps and diagrams used by the respondent for transmission planning;
- A detailed description of the transmission planning reliability criteria used to evaluate system performance for

time frames and planning horizons used in regional and corporate planning;

- A detailed description of the respondent’s transmission planning assessment practices (including, but not limited to, how reliability criteria are applied and the steps taken in performing transmission planning studies); and

- A detailed evaluation of the respondent’s anticipated system performance as measured against its stated reliability criteria using its stated assessment practices.

The information collected under FERC-715 assists the Commission in reviewing:

- Rates and charges;
- Disposition of jurisdictional facilities;
- Consolidations and mergers;
- Adequacy of supply; and
- Reliability and security of the nation’s bulk power system.

Without the FERC-715 data, the Commission would be less able to evaluate planned projects or requests related to transmission.

Type of Respondent: Integrated transmission system facilities rated at or above 100 kilovolts (kV).

*Estimate of Annual Burden:*³ The Commission estimates the total annual burden and cost⁴ for this information collection as follows.

FERC-715, ANNUAL TRANSMISSION PLANNING AND EVALUATION REPORT

Type of response	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response	Total annual burden hours & total annual cost	Cost per respondent (\$)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
Annual Transmission Planning and Evaluation Report.	111	1	111	160 hrs.; \$13,920 ..	17,760 hrs.; \$1,545,120.	\$13,920

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who

are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: September 1, 2022.

Secretary.
