

infringement of the '951 patent, Ventria has shown such a violation only as to the clinical grade products.

(Commissioner Stayin does not join the Commission's determination as to medium grade products and would find a violation as to all accused products.)

The Commission has determined that the appropriate form of relief is a limited exclusion order prohibiting (1) the unlicensed entry of infringing plant-derived recombinant human serum albumins ("rHSA") and products containing the same manufactured by or on behalf of, or imported by or on behalf of, Healthgen or the Defaulting Respondents or any of their affiliated companies, parents, subsidiaries, agents, or other related business entities, or their successors or assigns; and (2) the entry of plant-derived recombinant human serum albumins ("rHSA") and products containing same that fail to accurately designate the country of origin, and which are manufactured abroad by or on behalf of, or imported by or on behalf of, the Defaulting Respondents or any of their affiliated companies, parents, subsidiaries, agents, or other related business entities, or their successors or assigns. The Commission has determined to issue cease and desist orders against respondents ScienCell, Aspira, and eEnzyme.

The Commission has further determined that the public interest factors enumerated in subsections (d)(l) and (g)(1) (19 U.S.C. 1337(d)(l), (g)(1)) do not preclude issuance of the above-referenced remedial orders. Additionally, the Commission has determined to impose a bond of one hundred percent (100%) of the entered value of the covered products during the period of Presidential review (19 U.S.C. 1337(j)).

The investigation is hereby terminated in its entirety.

The Commission vote for this determination took place on September 12, 2022.
