SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements.

The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a

mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

Title of Information Collection: ONAP Training and Technical Assistance Evaluation Form.

OMB Approval Number: 2577-0291.

Type of Request: Reinstatement without change.

Form Number: Form HUD-5879.

Description of the need for the information and proposed use: The

Native American Housing Assistance and Self-Determination Act (NAHASDA) authorizes funding for the Indian Housing Block Grant (IHBG) program that supports the development, management, and operation of affordable homeownership and rental housing and other forms of housing assistance for low-income persons in Indian areas. Federally-recognized Native American tribes and Alaska Native villages, tribally-designated housing entities, and State-recognized tribes formerly eligible under the U.S. Housing Act of 1937 are eligible to receive IHBG funds.

HUD's Office of Native American Programs (ONAP) administers the IHBG program and offers contracted training and technical assistance to IHBG recipients on program requirements. ONAP's Notice of Funding Opportunity for training and technical assistance services includes the requirement for the contractor(s) to use an OMB-approved evaluation form at all ONAP-sponsored events. At the end of each training and technical assistance event, participants are invited to voluntarily complete the Training and Technical Assistance Evaluation Form (form HUD-5879) to assess training and technical assistance effectiveness and solicit ideas for improvement. Form HUD-5879 is a two-page survey instrument and does not collect any personally identifiable information, including a participant's name.
