

agencies, officials, organizations, and the public to participate in the scoping and DEIS study process will also be published in local newspapers.

The DEIS will analyze potential environmental impacts that may result from the proposed action including, but not limited to, land use and zoning; topography, geology, and soils; air quality; noise; cultural resources; water resources; and biological resources. The DEIS analysis will also evaluate direct, indirect, and cumulative impacts. Relevant and reasonable measures that could avoid or mitigate environmental impacts will also be analyzed. Additionally, the Bureau will undertake any consultations required by applicable laws or regulations.

The Bureau will issue the DEIS for a 45-day public comment period, during which time a public meeting will be held. A notice of availability of the DEIS and a notice of public meeting will be published in the **Federal Register** and in area newspapers in advance of the release of the DEIS and the public meeting. Those notices will identify further details about the public meeting, the means to view a copy of the DEIS, and the specific opportunities and methods for the public to provide comments on the proposed action and DEIS. Anyone wishing to receive notifications regarding the proposed project and DEIS are requested to contact the Bureau's Site Selection Specialist at the address shown below.

Following issuance of the DEIS and completion of the 45-day public comment period on the DEIS, the Bureau will issue a Final EIS (FEIS) that will include comments received during the public comment period on the DEIS. The FEIS will also include the Bureau's response to substantive comments received on the DEIS. Following publication of the FEIS, a 30-day review period will be provided. No action will be taken to implement any of the proposed alternatives until completion of the 30-day review period on the FEIS and issuance of a Record of Decision by the Director of the Bureau.
