Privacy Act of 1974; System of Records

AGENCY: Postal Service®.

ACTION: Notice of modified systems of records.

SUMMARY: The United States Postal Service® (Postal Service) is proposing to revise a Customer Privacy Act System of Records (SOR). These modifications are being made to support an initiative to identify population mobility trends in the aggregate.

DATES: These revisions will become effective without further notice on October 31, 2022, unless in response to comments received on or before that date result in a contrary determination.

ADDRESSES: Comments may be submitted via email to the Privacy and Records Management Office, United States Postal Service Headquarters (privacy@usps.gov). To facilitate public inspection, arrangements to view copies of any written comments received will be made upon request.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202–268–3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION: This notice is in accordance with the Privacy Act requirement that agencies publish their systems of records in the **Federal Register** when there is a revision, change, or addition, or when the agency establishes a new system of records. The Postal Service has determined that Customer Privacy Act System of Records, USPS 800.000 Address Change, Mail Forwarding, and Related Services should be revised

I. Background

The Postal Service is proposing to utilize ZIP Code™ data from the National Change-of-Address (COA) system to identify household population mobility trends.

The Postal Service will limit the trend analysis to ZIP Code data extracted (or taken) from old and new address location information submitted by customers filing COA requests.

The numerical ZIP Code data will be used in aggregate to determine household population movement and mobility trends within the United States.

Information will be restricted to ZIP Code data only, provided by customers that have submitted COA requests. No Personally Identifiable Information (PII) will be associated with ZIP Code data used for analyzing and determining population mobility trends. No PII will be retained or utilized to conduct the proposed household population mobility trend analysis.

II. Rationale for Changes to USPS Privacy Act Systems of Records

The Postal Service is proposing to modify SOR 800.000 Address Change, Mail Forwarding, and Related Services, to identify population mobility trends in the aggregate.

A new purpose is being added to the existing SOR, appearing as purpose number 12.

III. Description of the Modified System of Records

Pursuant to 5 U.S.C. 552a (e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the proposed revisions has been sent to Congress and to the Office of Management and Budget for their evaluations.
