Nature of Decision To Be Made

The nature of the decisions to be made will be the State Directors' selection of land use planning decisions pursuant to these RMP amendments for managing BLM-administered lands under the principles of multiple use and sustained yield in a manner that best addresses the purpose and need.

Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plan amendments in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in these planning efforts: air resources, planning, rangeland management, minerals and geology, outdoor recreation, archaeology, wildlife and fisheries, lands and realty, hydrology, soils, sociology, and economics.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to

resources from the proposed plan amendments and all analyzed reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the proposed plan amendments or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation, and may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for these planning efforts to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section 106. The BLM will coordinate and consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. The BLM intends to hold a series of government-to-government consultation meetings, and will send invites to potentially affected Tribal Nations prior to the meetings. The BLM will provide additional opportunities for government-to-government consultation during the NEPA processes. Federal, State, and local agencies, along with Indian Tribal Nations and other stakeholders that may be interested in or affected by the proposed Buffalo and Miles City RMP amendments that the BLM is evaluating, are invited to participate in the scoping processes and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analyses as a cooperating agency.
