

comment submission process in light of the ongoing Covid-19 pandemic. DOE is currently accepting only electronic submissions at this time. If a commenter finds that this change poses an undue hardship, please contact Office of Resource Sustainability staff at (202) 586-4749 or (202) 586-7893 to discuss the need for alternative arrangements. Once the Covid-19 pandemic health emergency is resolved, DOE anticipates resuming all of its regular options for public comment submission, including postal mail and hand delivery/courier.

Cassandra Bernstein, U.S. Department of Energy (GC-76), Office of the Assistant General Counsel for Energy Delivery and Resilience, Forrestal Building, Room 6D-033, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-9793, cassandra.bernstein@hq.doe.gov

SUPPLEMENTARY INFORMATION: BPEC requests a short-term blanket authorization to export LNG that has been previously imported into the United States from foreign sources for a two-year period commencing on December 2, 2022. BPEC seeks to export the LNG from the Cove Point LNG Terminal located in Calvert County, Maryland, to any country with the capacity to import LNG via ocean-going carrier and with which trade is not prohibited by U.S. law or policy.¹ This includes both countries with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA countries) and all other countries (non-FTA countries). This Notice applies only to the portion of the Application requesting authority to export the previously imported LNG to non-FTA countries pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a). BPEC states that its existing blanket re-export authorization, set forth in DOE/FE Order No. 4628 (Docket No. 20-102-LNG), is scheduled to expire on

December 1, 2022. BPEC further states that it does not seek authorization to export any domestically produced natural gas or LNG.

BPEC requests this authorization on its own behalf and as agent for other parties that hold title to the LNG at the time of export. Additional details can be found in BPEC's Application, posted on the DOE website at: www.energy.gov/sites/default/files/2022-09/22-111-LNG.pdf.

DOE Evaluation

In reviewing BPEC's Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. Parties that may oppose this application should comment in their responses on these issues.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 30 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590, including the service requirements.

As noted, DOE is only accepting electronic submissions at this time. Please email the filing to fergas@hq.doe.gov. All filings must include a reference to "Docket No. 22-111-LNG"

or "BP Energy Company Application" in the title line.

Please Note: Please include all related documents and attachments (e.g., exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater in length than 50 pages must also include, at the time of the filing, a digital copy on disk of the entire submission.

The Application and any filed protests, motions to intervene, notices of interventions, and comments will also be available electronically by going to the following DOE Web address: www.energy.gov/fecm/regulation.

A decisional record on the Application will be developed through responses to this Notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this Notice, in accordance with 10 CFR 590.316.

Signed in Washington, DC, on September 30, 2022.

Amy Sweeney,

Director, Office of Regulation, Analysis, and Engagement, Office of Resource Sustainability.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[Docket No. 22-110-LNG]

NFE Altamira FLNG, S. de R.L. de C.V.; Application for Long-Term, Multi-Contract Authorization To Export Domestically Produced Natural Gas to Mexico and To Re-Export Liquefied Natural Gas From Mexico to Non-Free Trade Agreement Countries

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) gives notice (Notice) of receipt of an

¹ DOE takes notice that the Cove Point LNG Terminal is owned by Cove Point LNG, LP. See, e.g., Cove Point LNG, LP, Docket No. 22-22-LNG.

application (Application), filed on September 9, 2022, by NFE Altamira FLNG, S. de R.L. de C.V. (NFE Altamira). NFE Altamira requests long-term, multi-contract authorization to export domestically produced natural gas by pipeline to Mexico in a volume up to 158 billion cubic feet (Bcf) per year (Bcf/yr), and to re-export 145 Bcf/yr of this natural gas as liquefied natural gas (LNG). NFE Altamira seeks to re-export this LNG by vessel from a proposed floating liquefaction and export terminal project, the Altamira FLNG Project (Project), to be located off the coast of Altamira Tamaulipas, Mexico, in the Gulf of Mexico. NFE Altamira filed the Application under section 3 of the Natural Gas Act (NGA).

DATES: Protests, motions to intervene, or notices of intervention, as applicable, and written comments are to be filed electronically as detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, December 5, 2022.

ADDRESSES: *Electronic Filing by email:* fergas@hq.doe.gov.

Although DOE has routinely accepted public comment submissions through a variety of mechanisms, including postal mail and hand delivery/courier, DOE has found it necessary to make temporary modifications to the comment submission process in light of the ongoing Covid-19 pandemic. DOE is currently accepting only electronic submissions at this time. If a commenter finds that this change poses an undue hardship, please contact Office of Resource Sustainability staff at (202) 586-4749 or (202) 586-7893 to discuss the need for alternative arrangements. Once the Covid-19 pandemic health emergency is resolved, DOE anticipates resuming all of its regular options for public comment submission, including postal mail and hand delivery/courier.

FOR FURTHER INFORMATION CONTACT:

Cassandra Bernstein, U.S. Department of Energy (GC-76), Office of the Assistant General Counsel for Energy Delivery and Resilience, Forrestal Building, Room 6D-033, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586-

9793, cassandra.bernstein@hq.doe.gov

SUPPLEMENTARY INFORMATION: NFE Altamira requests long-term, multi-contract authorization to export domestically produced natural gas to Mexico via the border-crossing facilities of Valley Crossing Pipeline, LLC to the proposed Altamira FLNG Project. NFE Altamira states that the Project has been proposed by its affiliate, Mexico FLNG S. de R.L. de C.V., an indirect wholly-owned subsidiary of New Fortress Energy Inc. (NFE Altamira's parent company).

NFE Altamira seeks to export this natural gas for both consumption in Mexico and to convert the natural gas, as well as U.S.-sourced volumes for which it acquires title in Mexico, to LNG for re-export to: (i) any nation with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA nations), and (ii) any other nation with which trade is not prohibited by U.S. law or policy (non-FTA nations). This Notice applies only to the portion of the Application requesting authority to re-export of LNG produced from U.S.-sourced natural gas to non-FTA countries pursuant to section 3(a) of the NGA.¹ DOE will review NFE Altamira's request for a FTA export authorization separately pursuant to NGA section 3(c).²

NFE Altamira seeks the authorization on its own behalf and as agent for other entities that will hold title to the natural gas or LNG at the point of export or re-export, respectively. NFE Altamira requests the authorization for a term to commence on the date of first export following the commencement of commercial operation of the Project, and to extend through December 31, 2050.

Additional details can be found in NFE Altamira's Application, posted on the DOE website at: www.energy.gov/sites/default/files/2022-09/22-110-LNG.pdf.

DOE Evaluation

In reviewing the Application, DOE will consider any issues required by law or policy. DOE will consider domestic need for the natural gas, as well as any other issues determined to be appropriate, including whether the arrangement is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements. As part of this analysis, DOE will consider the study entitled, *Macroeconomic Outcomes of*

Market Determined Levels of U.S. LNG Exports (2018 LNG Export Study),³ and DOE's response to public comments received on that Study.⁴

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States*, 79 FR 48132 (Aug. 15, 2014);⁵

- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States*, 79 FR 32260 (June 4, 2014);⁶ and

- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States: 2019 Update*, 84 FR 49278 (Sept. 19, 2019), and DOE's response to public comments received on that study.⁷

Parties that may oppose this Application should address these issues and documents in their comments and protests, as well as other issues deemed relevant to the Application.

The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Interested parties will be provided 60 days from the date of publication of this Notice in which to submit comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 1773–042]

Moon Lake Electric Association, Inc.; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission or FERC) regulations, 18 Code of Federal Regulations (CFR) part 380, Commission staff reviewed Moon Lake Electric Association, Inc.’s application to surrender the project license of the Yellowstone Hydroelectric Project No. 1773 and have prepared an Environmental Assessment (EA). The licensee proposes to surrender the license for the project and decommission the project facilities, which includes removing the project dam, abutments, and penstock. The licensee would also restore the reach of the Yellowstone River affected by the dam and reservoir by using sediments to rebuild the channel, and reclaim upland areas disturbed. The project is located on the Yellowstone River in Duchesne County, Utah, within the Ashley National Forest, administered by the U.S. Department of Agriculture’s Forest Service, and within the Uintah and Ouray Reservations.

The EA contains Commission staff’s analysis of the potential environmental effects of the proposed surrender of the project license, and concludes that, with appropriate environmental protective measures, it would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission’s Home Page (<http://www.ferc.gov>) using the “eLibrary” link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, (202) 502–8659.

You may also register online at <https://ferconline.ferc.gov/eSubscription.aspx> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

For further information, contact Marybeth Gay at 202–502–6125 or Marybeth.Gay@ferc.gov.

Dated: September 30, 2022.

Federal Energy Regulatory Commission

[Docket Nos. CP16–454–000; CP16–454–003; CP16–455–000; CP16–455–002]

Rio Grande LNG, LLC; Rio Bravo Pipeline Company, LLC; Notice Seeking Public Comment on Responses to Information Requests

On May 5, 2016, Rio Grande LNG, LLC (Rio Grande) filed an application under section 3 of the Natural Gas Act (NGA)¹ and Part 153 of the Commission’s regulations² for authorization to construct and operate a liquefied natural gas (LNG) export terminal on the north embankment of the Brownsville Ship Channel in Cameron County, Texas. At the same time, Rio Bravo Pipeline Company, LLC (Rio Bravo) filed an application under NGA section 7(c)³ and Part 157 of the Commission’s regulations⁴ for authorization to construct and operate a natural gas pipeline system that would deliver gas to the terminal for liquefaction and export. On November 22, 2019, the Commission authorized Rio Grande’s and Rio Bravo’s respective proposals, subject to conditions.⁵ On August 3, 2021, the U.S. Court of Appeals for the D.C. Circuit (D.C. Circuit) partially remanded, but did not vacate, the Commission’s authorization.⁶ On August 16, 2022, and August 31, 2022, Commission staff issued environmental information requests to Rio Grande in order to address deficiencies noted in the D.C. Circuit’s August 3, 2021 decision. Rio Grande responded to Commission staff’s information requests on August 22,
