

second or inflow to the impoundment, whichever is less, as measured immediately downstream of the powerhouse. Downstream fish passage is provided for river herring through the notch in the slide gate located on top of the spillway. There are no upstream fish passage facilities at the project.

The minimum and maximum hydraulic capacities of the powerhouse are 175 and 420 cfs, respectively. The average annual generation of the project was approximately 1,572 megawatt-hours from 2014 through 2020.

GMP is not proposing any changes to project facilities or operation.

m. A copy of the application can be viewed on the Commission's website at <https://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support.

n. Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's

Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

All filings must: (1) bear in all capital letters the title "PROTEST," "MOTION TO INTERVENE," "COMMENTS," "REPLY COMMENTS," "RECOMMENDATIONS," "PRELIMINARY TERMS AND CONDITIONS," or "PRELIMINARY FISHWAY PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions, or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. A copy of all other filings in reference to this application must be accompanied by proof of service on all

persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

You may also register online at <https://www.ferc.gov/ferc-online/overview> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

o. The applicant must file no later than 60 days following the date of issuance of this notice: (1) a copy of the water quality certification; (2) a copy of the request for certification, including proof of the date on which the certifying agency received the request; or (3) evidence of waiver of water quality certification. Please note that the certification request must comply with 40 CFR 121.5(b), including documentation that a pre-filing meeting request was submitted to the certifying authority at least 30 days prior to submitting the certification request. Please also note that the certification request must be sent to the certifying authority and to the Commission concurrently.

p. Procedural schedule: The application will be processed according to the following preliminary schedule. Revisions to the schedule will be made as appropriate.

Milestone	Target date
Deadline for filing interventions, protests, comments, recommendations, preliminary terms and conditions, and preliminary fishway prescriptions.	December 2022.
Deadline for filing reply comments	January 2023.

q. Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of this notice.

Dated: October 3, 2022.

Kimberly D. Bose,

Secretary.

Board of Scientific Counselors (BOSC) Review Panel Meeting—October 2022

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting.

SUMMARY: The Environmental Protection Agency (EPA), Office of Research and Development (ORD), gives notice of

virtual meetings of the Board of Scientific Counselors (BOSC) panel review of the New Chemicals Collaborative Research Program.

DATES: The deliberation meeting will be held over two days via videoconference:

a. Monday, October 24, 2022, from 11 a.m. to 6 p.m. (EDT); and

b. Tuesday, October 25, 2022, from 11 a.m. to 6 p.m. (EDT).

Attendees must register by October 23, 2022.

Meeting times are subject to change. This series of meetings is open to the public. Comments must be received by October 23, 2022, to be considered by the BOSC. Requests for the draft agenda or making a presentation at the meeting will be accepted until October 23, 2022.

ADDRESSES: Instructions on how to connect to the videoconference will be provided upon registration at: <https://bosc-ocspp-review.eventbrite.com>.

Submit your comments to Docket ID No. EPA-HQ-ORD-2015-0765 by one of the following methods:

- www.regulations.gov: Follow the online instructions for submitting comments.

- **Note:** Comments submitted to the www.regulations.gov website are anonymous unless identifying information is included in the body of the comment.

- **Email:** Send comments by electronic mail (email) to: ORD.Docket@epa.gov, Attention Docket ID No. EPA-HQ-ORD-2015-0765.

- **Note:** Comments submitted via email are not anonymous. The sender's email will be included in the body of the comment and placed in the public docket which is made available on the internet.

Instructions: All comments received, including any personal information provided, will be included in the public docket without change and may be made available online at

www.regulations.gov. Information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute

will not be included in the public docket and should not be submitted through www.regulations.gov or email. For additional information about the EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/dockets/>.

Public Docket: Publicly available docket materials may be accessed Online at www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: The Designated Federal Officer (DFO), Tom Tracy, via phone/voicemail at: 919-541-4334; or via email at: tracy.tom@epa.gov.

Any member of the public interested in receiving a draft agenda, attending the meeting, or making a presentation at the meeting should contact Tom Tracy no later than October 23, 2022.

SUPPLEMENTARY INFORMATION: The Board of Scientific Counselors (BOSC) is a federal advisory committee that provides advice and recommendations to EPA's Office of Research and Development on technical and management issues of its research programs. The meeting agenda and materials will be posted to <https://www.epa.gov/bosc>.

Proposed agenda items for the meeting include, but are not limited to, the following: review of the New Chemicals Collaborative Research Program.

Information on Services Available: For information on translation services, access, or services for individuals with disabilities, please contact Tom Tracy at 919-541-4334 or tracy.tom@epa.gov. To request accommodation of a disability, please contact Tom Tracy at least ten days prior to the meeting to give the EPA adequate time to process your request.

Authority: Pub. L. 92-463, 1, Oct. 6, 1972, 86 Stat. 770.

Mary Ross,

Director, Office of Science Advisor, Policy and Engagement.

[EPA-HQ-OAR-2021-0669; FRL-9116-03-OAR]

Phasedown of Hydrofluorocarbons: Notice of 2023 Allowance Allocations for Production and Consumption of Regulated Substances Under the American Innovation and Manufacturing Act of 2020

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has issued calendar year 2023 allowances for the production and consumption of hydrofluorocarbons in accordance with the Agency's regulations as established in the 2021 final rule titled *Phasedown of Hydrofluorocarbons: Establishing the Allowance Allocation and Trading Program under the American Innovation and Manufacturing Act*. The American Innovation and Manufacturing Act directs the Environmental Protection Agency by October 1 of each calendar year to determine the quantity of production and consumption allowances for the following calendar year. The Agency also provided notice to certain companies on September 30, 2022, that the Agency intends to retire an identified set of those companies' allowances in accordance with the administrative consequences provisions established in the final rule.

FOR FURTHER INFORMATION CONTACT: Andy Chang, U.S. Environmental Protection Agency, Stratospheric Protection Division, telephone number: 202-564-6658; email address: chang.andy@epa.gov. You may also visit EPA's website at <https://www.epa.gov/climate-hfcs-reduction> for further information.

SUPPLEMENTARY INFORMATION: Subsection (e)(2)(D)(i) of the American Innovation and Manufacturing Act of 2020 (AIM Act) directs the Environmental Protection Agency (EPA) to determine, by October 1 of each calendar year, the quantity of allowances for the production and consumption of regulated substances that may be used for the following calendar year. EPA has codified the production and consumption baselines and phasedown schedules for regulated substances in 40 CFR 84.7. Under the

phasedown schedule, for 2023, total production allowances may not exceed 344,299,157 metric tons of exchange value equivalent (MTEVe) and total consumption allowances may not exceed 273,498,315 MTEVe.

EPA regulations at 40 CFR part 84, subpart A, outline the process by which the Agency determines the number of allowances each entity is allocated. EPA allocated allowances consistent with this process for calendar year 2023, and has posted entity-specific allowance allocations on its website at <https://www.epa.gov/climate-hfcs-reduction>. An allowance allocated under the AIM Act does not constitute a property right and is a limited authorization for the production or consumption of a regulated substance.

EPA has codified the procedure for calculating application-specific allowance allocations in 40 CFR 84.13. These allowances are drawn from both the production and consumption allowance pools. EPA is issuing "application-specific allowances" to end users in five applications established by the AIM Act: propellants in metered dose inhalers, defense sprays, structural composite preformed polyurethane foam for marine use and trailer use, etching of semiconductor material or wafers and the cleaning of chemical vapor deposition chambers within the semiconductor manufacturing sector, and onboard aerospace fire suppression. Additionally, EPA is issuing "application-specific allowances" to the U.S. Department of Defense for mission-critical military end uses.

EPA has denied requests for application-specific allowances from Applied Materials, Inc; Benuvia Manufacturing; General Electric Global Research Center; Gilero LLC; Guardian Protective Devices, Inc.; nHalience LLC; and Shamrock Filling LLC because they are ineligible under 40 CFR 84.13. The requests were ineligible for at least one of the following reasons:

- (1) Did not meet the criteria for HFC use in a covered application;
- (2) Did not submit by the deadline;
- (3) Did not provide proper supporting documentation or justification for their requests; or
- (4) Did not report purchases of regulated substances in the past three years.

EPA has allocated 2023 application-specific allowances as shown in Table 1.
