

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–673–675 and 677 (Final)]

Steel Nails From India, Oman, Sri Lanka and Turkey

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is not materially injured or threatened with material injury by reason of imports of steel nails from India, Oman, and Turkey, provided for in subheadings 7317.00.55, 7317.00.65, and 7317.00.75 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be subsidized by the governments of India, Oman, and Turkey.² The Commission further finds that imports of steel nails from Sri Lanka that Commerce has determined are subsidized by the government of Sri Lanka are negligible and terminates that investigation.

Background

The Commission instituted these investigations effective December 30, 2021, following receipt of petitions filed with the Commission and Commerce by Mid Continent Steel & Wire, Inc., Poplar Bluff, Missouri. The Commission scheduled the final phase of the investigations following notification of preliminary determinations by Commerce that imports of steel nails from India, Oman, Sri Lanka, Thailand,³ and Turkey were being subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)). Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of June 21, 2022 (87 FR 36882). In light of the restrictions on access to

the Commission building due to the COVID–19 pandemic, the Commission conducted its hearing through written testimony and video conference on August 17, 2022. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to § 705(b) of the Act (19 U.S.C. 1671d(b)). It completed and filed its determinations in these investigations on October 6, 2022. The views of the Commission are contained in USITC Publication 5370 (October 2022), entitled *Steel Nails from India, Oman, Sri Lanka, and Turkey: Investigation Nos. 701–TA–673–675 and 677 (Final)*.

By order of the Commission.

Issued: October 6, 2022.

Katherine Hiner,

Acting Secretary to the Commission.

Background

Each year, Federal agencies create billions of records. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval. Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives or to destroy, after a specified period, records lacking continuing administrative, legal, research, or other value. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the

Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.
