POSTAL REGULATORY COMMISSION

[Docket No. MC2023–12; Order No. 6301]

Market Dominant Product List

AGENCY: Postal Regulatory Commission.

ACTION: Notice.

SUMMARY: The Commission is recognizing a recent Postal Service filing requesting to add USPS Connect Local Mail as a new, permanent product to the Mail Classification Schedule and the request's dismissal.

FOR FURTHER INFORMATION CONTACT: David A. Trissell, General Counsel, at 202–789–6820.

I. Introduction and Overview

On October 11, 2022, the Postal Service filed a request with the

Commission pursuant to 39 U.S.C. 3642 and 39 CFR 3045.18 to add USPS Connect Local Mail, currently an experimental product, as a new, permanent product offering under the Mail Classification Schedule (MCS) section 1115 (Market Dominant Products: First-Class Mail: First-Class Mail Flats).¹ The USPS Connect Local Mail market test was initially authorized by the Commission on January 4, 2022.² It is currently set to expire on January 8, 2024. Order No. 6080 at 20. USPS Connect Local Mail is a derivative of First-Class Mail that functions as an alternative to long-distance, end-to-end mailing for use by business mailers who wish to send mail locally with regular frequency. Order No. 6080 at 2.

In order for the Commission to convert an experimental product offering into a permanent product offering, the Postal Service must first file a request that complies with, among other rules, 39 U.S.C. 3642, 39 CFR 3040.131, 39 CFR 3040.132, and 39 CFR 3045.18. Because the Request does not contain the information required by these statutes and regulations, the Commission dismisses the Request. This dismissal is without prejudice to allow the Postal Service to refile a compliant request to convert USPS Connect Local Mail into a permanent product offering, should it see fit.

II. Commission Analysis

As the Postal Service correctly identifies, a request to add a non-experimental product to the Market Dominant product list based on an experimental product is governed by 39 U.S.C. 3642 and 39 CFR 3045.18. Request at 1. The regulation sets out numerous requirements, including that the request be filed “pursuant to 39 U.S.C. 3642 and part 3040, subpart B of this chapter.” 39 CFR 3045.18(a). Part 3040, subpart B, in turn, contains the requirements that the Postal Service must follow to modify the product lists generally. Among these requirements is the mandate that the Postal Service “[p]rovide all supporting justification” upon which it proposes to rely on making the request. 39 CFR 3040.131(e).

The supporting justification is the crux of the request to modify the product list. Section 3040.132 sets out in detail the contents of the supporting justification. See 39 CFR 3040.132.

¹ United States Postal Service Request to Convert USPS Connect Local Mail to a Permanent Offering, October 11, 2022, at 1–2 (Request).

² Docket No. MT2022–1, Order Authorizing Market Test of Experimental Product—USPS Connect Local Mail, January 4, 2022 (Order No. 6080).

Such information is not only required by law but necessary in practice. As the Commission has previously explained in the analogous context of changes to the MCS, a full and complete request is important to ensure that the Commission has “sufficient information to make the necessary determination as to whether a [] MCS change is appropriate” and to avoiding the issuance of large numbers of Chairman's Information Requests during proceedings, which leads “to the expenditure of additional resources by the Commission, the Postal Service, and other interested persons” and “complicate[s] the Commission's review.”³ An insufficient initial “explanation of and justification for proposed classification changes also undermines the Commission's objective that changes [] are made in an accurate and transparent manner, such that it is clear to participants in Commission proceedings, users of the mail, and the Commission the precise changes the Postal Service is proposing, the likely effects, and the Postal Service's rationale for proposing such changes.”⁴

The previous proceedings related to USPS Connect Local Mail provide a good example of the importance of the required information. In approving the market test, the Commission emphasized that safeguards in the market test process—specifically, limited duration and revenue and the reevaluation of the product should the Postal Service wish to extend the test or offer the product permanently—weighed in favor of allowing the market test to proceed. Order No. 6080 at 15. The Commission explained that, going forward:

[I]f the Postal Service submits a request to convert USPS Connect Local Mail into a non-experimental offering (such as a permanent product, permanent price category, or a negotiated service agreement), the Postal Service must comply with 39 CFR 3045.18 and 39 CFR part 3040, subpart B. See 39 CFR 3045.18(a). The Commission expects that such a request would include, among other things, the information and supporting justification that would enable correct categorization of the proposed offering. See 39 CFR 3040.131, 3040.132.

Order No. 6080 at 15–16.

However, the Request fails to include the information required by 39 U.S.C. 3642, 39 CFR 3040.131, 39 CFR

⁴ Docket Nos. CP2022–22 and CP2022–62, Order Granting in Part the United States Postal Service's Motions for Clarification of Order Nos. 6071 and 6195, August 15, 2022, at 9–10 (Order No. 6249).
