Rural Business-Cooperative Service

Title: Agriculture Innovation Centers.

OMB Control Number: 0570–0045.

Summary of Collection: USDA's Rural Business-Cooperative Service (RBCS) administers the Agriculture Innovation Center Demonstration (AIC) Program. The primary objective of this program is to provide funds to Agriculture Innovation Centers (Centers) which provide agricultural producers with technical and business development assistance. RBCS collects information from applicants to confirm eligibility for the program and to evaluate the quality of the applications. Recipients of awards are required to submit reporting and payment request information to facilitate monitoring of the award and disbursement of funds.

The Farm Security and Rural Investment Act of 2002 (Pub. L. 107–171) authorized the Secretary of the U.S. Department of Agriculture (USDA) to award grant funds to Centers. The Food, Conservation, and Energy Act of 2008 reauthorized the program through September 30, 2012. The Agricultural Act of 2014 (Pub. L. 113–79) reauthorized the program through September 30, 2018. The Agriculture Improvement Act of 2018 reauthorized the program through FY 2023.

Need and Use of the Information: Information is collected by RBCS, with the assistance of Rural Development State and Area Staff, as needed. The application information is used to confirm that the applicant and use of funds meet the eligibility requirements for the program as well as to assess the quality of the proposed project. The recipients are required to submit financial status and performance reports to confirm funds are being expended as approved and requests for advance or reimbursement to request payment. RBCS also uses the information to create data entries in its financial management system, the Guaranteed Loan System (GLS), to track application status and to obligate awards.

Summary of Collection: The Rural Business-Cooperative Service (RBCS or the Agency) is a Rural Development agency of the U.S. Department of Agriculture and administers The Biorefinery, Renewable Chemical, and Biobased Product Manufacturing Assistance Program (Program). The

Program was established under section 9003 of the 2008 Farm Bill and assists in the development, construction, and retrofitting of new and emerging technologies for the development of advanced biofuels by providing loan guarantees of up to \$250 million. The Program's authority was continued in the Agricultural Acts of 2014 and 2018. This collection of information is necessary for Rural Development to identify projects eligible for loan guarantees under the Program. In accordance with the Paperwork Reduction Act of 1995 (Pub. Lenders provide the Agency with quarterly construction progress reports demonstrating that engineering and financial criteria used in the review and approval of the application continue to be met during the construction phase of the project. Post-construction information will be collected demonstrating that the bio-refineries are operating and meeting all financial criteria projected during the application phase. Need and Use of the Information: The collected information will be used to determine applicant/borrower eligibility, project feasibility, and to ensure borrowers operate on a sound basis and use loan funds for authorized purposes.
