

The first phase of Project E received an allocation of credits in 2023, pursuant to an application filed March 15, 2023, which describes the multiphase composition of the project. An application for tax credits for the second phase of Project E is filed with the allocating agency by the same entity on March 15, 2024. The second phase of Project E is located on a contiguous site. Credits are allocated to the second phase of Project E on October 30, 2024. The aggregate amount of credits allocated to the two phases of Project E exceeds the amount of credits that may be allocated to an applicant in one year under the allocating agency's QAP and is the reason that applications were made in multiple phases. The second phase of Project E is, therefore, eligible for the increase in basis accorded a project in a 2023 DDA, because it meets all of the conditions to be a part of a multiphase project.

(Case F) Project F is a multiphase project located in a 2023 DDA that is NOT a designated DDA in 2024 or 2025. The first phase of Project F received an allocation of credits in 2023, pursuant to an application filed March 15, 2023, which does not describe the multiphase composition of the project. An application for tax credits for the second phase of Project F is filed with the allocating agency by the same entity on March 15, 2025. Credits are allocated to the second phase of Project F on October 30, 2025. The aggregate amount of credits allocated to the two phases of Project F exceeds the amount of credits that may be allocated to an applicant in one year under the allocating agency's QAP. The second phase of Project F is, therefore, NOT eligible for the increase in basis accorded a project in a 2023 DDA, since it does not meet all of the conditions for a multiphase project, as defined in this notice. The original application for credits for the first phase did not describe the multiphase composition of the project. Also, the application for credits for the second phase of Project F was not made in the year immediately following the first phase application year.

VIII. Findings and Certifications

Environmental Impact

This notice involves the statutorily required establishment of fiscal requirements or procedures that are related to rate and cost determinations and do not constitute a development decision affecting the physical condition of specific project areas or building sites. Accordingly, under 24 CFR 50.19(c)(6) of HUD's regulations, this notice is categorically excluded

from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321, *et seq.*).

Federalism Impact

Executive Order 13132 (entitled "Federalism") prohibits an agency from publishing any policy document that has federalism implications if the document either imposes substantial direct compliance costs on state and local governments and is not required by statute, or the document preempts state law, unless the agency meets the consultation and funding requirements of section 6 of the executive order. This notice merely designates DDAs and QCTs as required under IRC section 42, as amended, for the use by political subdivisions of the states in allocating the LIHTC. This notice also details the technical methods used in making such designations. As a result, this notice is not subject to review under the order.

Solomon J. Greene,

Principal Deputy Assistant Secretary for Policy Development and Research.

BILLING CODE 4210-67-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1313 (Review)]

1,1,1,2-Tetrafluoroethane (R-134a) From China

Determination

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the antidumping duty order on 1,1,1,2-tetrafluoroethane (R-134a) from China would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted this review on March 1, 2022 (87 FR 11475) and determined on June 6, 2022, that it would conduct an expedited review (87 FR 57517, September 20, 2022).

The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on October 20, 2022. The views of the Commission are contained in USITC Publication 5378 (October 2022), entitled *1,1,1,2-Tetrafluoroethane (R-134a) from China: Investigation No. 731-TA-1313 (Review)*.

By order of the Commission.

Issued: October 20, 2022.

Katherine Hiner,

Acting Secretary to the Commission.
