

further notice. Persons with questions regarding filing should contact the Secretary at EDIS3Help@usitc.gov.

Any person desiring to submit a document to the Commission in confidence must request confidential treatment. All such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. See 19 CFR 201.6. Documents for which confidential treatment by the Commission is properly sought will be treated accordingly. All information, including confidential business information and documents for which confidential treatment is properly sought, submitted to the Commission for purposes of this Investigation may be disclosed to and used: (i) by the Commission, its employees and Offices, and contract personnel (a) for developing or maintaining the records of this or a related proceeding, or (b) in internal investigations, audits, reviews, and evaluations relating to the programs, personnel, and operations of the Commission including under 5 U.S.C. appendix 3; or (ii) by U.S. government employees and contract personnel,² solely for cybersecurity purposes. All nonconfidential written submissions will be available for public inspection at the Office of the Secretary and on EDIS.³

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and of §§ 201.10 and 210.8(c) of the Commission's Rules of Practice and Procedure (19 CFR 201.10, 210.8(c)).

By order of the Commission.

Issued: October 20, 2022.

Katherine M. Hiner,

Acting Secretary to the Commission.

BILLING CODE 7020-02-P

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Establish an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: Under the Paperwork Reduction Act of 1995, and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting

the general public or other Federal agencies to comment on this proposed continuing information collection.

DATES: Written comments on this notice must be received by December 27, 2022, to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; (b) the accuracy of the Foundation's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

Title of Collection: NSF's Computer and Information Science and Engineering (CISE) Broadening Participation in Computing (BPC) Pilot Survey.

OMB Number: 3145-NEW.

Expiration Date of Approval: Not applicable.

Type of Request: Intent to seek approval to establish an information collection for post-award output and outcome monitoring system.

Abstract: Guided by its Strategic Plan, the National Science Foundation (NSF) has had a longstanding commitment to broadening participation of underrepresented groups and diverse institutions in science, technology, engineering, and math (STEM). In recent years, the Computer and Information Science and Engineering (CISE) Directorate has made a concerted effort to address underrepresentation of various groups in the field of computer science, including women, persons with disabilities, Blacks and African Americans, Hispanics and Latinos, American Indians, Alaska Natives,

Native Hawaiians, and Other Pacific Islanders. Underrepresentation in the computer science field has resulted in unwelcoming work and academic environments, the belief among those in positions of influence (e.g., counselors, teachers, faculty, and recruiters) that some people are not well suited to computing or are less likely to excel, and a lack of policies promoting equity within educational institutions and private companies.

This underrepresentation has important implications for society. Computing is one of the fastest growing sectors of the economy, and the lack of diversity deprives the field of a wealth of experience, knowledge, expertise, and perspective. The CISE Strategic Plan for Broadening Participation (November 2012) recognizes that the ". . . causes of longstanding underrepresentation are complex and deeply rooted in the cultures of different demographic groups as well as in our society, in our educational institutions, and in our popular media. They will not be easily or quickly changed."

The NSF CISE Directorate requests the Office of Management and Budget (OMB) approval of this clearance to initiate new data collections to be conducted as part of an external evaluation of the CISE BPC pilot. These collections, to be conducted by the evaluation contractor, include:

Survey of BPC pilot projects. A one-time web-based survey of all BPC pilot projects funded between FY19 to FY21. The purpose is to corroborate and confirm key findings from reviews of existing project documentation (e.g., types of strategies that BPC pilots are using to address systemic barriers, as described in Research Performance Progress Reports), as well as to collect data about topics not covered by existing documentation. The survey data will enable NSF to assess the feasibility and value of specific data elements that might be included in recommendations for how to document the characteristics and outcomes of BPC pilots in future years.

Interviews with BPC pilot projects. Interviews with representatives from a purposeful sample of 30 BPC pilot projects funded between FY19 to FY21. The interviews, to be conducted using a virtual meeting platform at a time convenient for the participants, will provide in-depth information about specific topics of interest to NSF (e.g., how BPC pilot project plans and Departmental plans are being implemented, effective strategies for broadening participation across a range of preK-20 settings). An added purpose is to corroborate findings obtained

² All contract personnel will sign appropriate nondisclosure agreements.

³ Electronic Document Information System (EDIS): <https://edis.usitc.gov>

through prior reviews of existing documents and dive more deeply on selected areas that are of interest to CISE staff and other stakeholders.

This data collection is necessary to provide NSF with timely and actionable information about the characteristics, broad strategies and activities, short-term outputs, and outcomes associated with the approximately 800 awards funded through the CISE broadening participation in computing (BPC) pilot. The information collected will provide a better understanding of: (1) the outputs and outcomes of the BPC pilot projects and whether they are correlated with national trends related to computing, (2) the feasibility of measuring the types of impacts associated with BPC pilots; and (3) promising strategies.

Use of the Information: Aggregate results from the survey and interviews will be summarized in reports developed by the evaluation contractor that will be provided to NSF. While the

individual survey and interview responses will be identifiable to the contractor, the reports provided to NSF will only include overall results. Westat will not report any No individual survey or individual responses will be reported to NSF, and no information about individuals participating in the surveys and interviews will be released to anyone outside the contractor's organization. The data collected and reported on will be used for planning, management, and evaluation purposes. These data are needed for effective administration, program monitoring, evaluation, and for strategic reviews and measuring attainment of NSF's program and strategic goals, as identified by the President's Accountable Government Initiative, the Government Performance and Results Act Modernization Act of 2010, Evidence-Based Policymaking Act of 2018, and NSF's Strategic Plan.

Expected Respondents: The respondents are either Principal

Investigators (PIs) and/or other key personnel on grants funded through the NSF CISE pilot. The survey will include all PIs with awards that required a BPC plan funded from FY 19 to FY 21 (approximately 800 total). The interviews will include PIs and/or other key personnel from a sample of 30 projects.

Estimate of Burden:

Estimates of Annualized Cost to Respondents for the Hour Burdens

The overall annualized cost to the respondents is estimated to be \$21,070. The following table shows the estimated burden and costs to respondents, who are generally computer science teachers at the postsecondary level. This estimated hourly rate is based on a report from the Bureau of Labor Statistics' Occupational Employment and Wages, May 2021.¹ According to this report, the average hourly rate is \$43.08.

Collection title	Total number of respondents	Burden hours per respondent	Total hour burden	Average hourly rate	Estimated annual cost
Survey of BPC pilot projects	800	.5	400	\$43	\$17,200
Interviews with BPC pilot projects	90	1	90	43	3,870
Total	890	490	21,070

Estimated Number of Responses per Report:

Data collection for the collections involves all awardees in the programs involved for the survey and a sample of 90 representatives from 30 projects for the interviews.

Dated: October 20, 2022.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-8943; NRC-2022-0153]

Crow Butte Resources, Inc.; In Situ Uranium Recovery Facility

AGENCY: Nuclear Regulatory Commission.

ACTION: Final finding of no significant impact and environmental assessment supplement; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing a final

finding of no significant impact (FONSI) and accompanying supplement to the NRC staff's environmental assessment (EA) for the license renewal of the Crow Butte Resources, Inc. (CBR) in situ uranium recovery (ISR) facility located Dawes County, Nebraska. Based on the analysis in the EA supplement, the NRC staff has concluded that there will be no significant impacts to cultural resources from the renewal of CBR's license and, therefore, a FONSI remains appropriate.

DATES: The EA supplement referenced in this document is available on October 25, 2022.

ADDRESSES: Please refer to Docket ID NRC-2022-0153 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0153. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed

in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to PDR.Resource@nrc.gov. The EA supplement can be found in ADAMS under Accession No. ML22278A108.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

- *Project Website:* Information related to the CBR project can be accessed on

¹ <https://www.bls.gov/oes/current/oes251021.htm>.
