- New Attachments Health Care Claims Infrastructure Rule;
- New Attachments Health Care Claims Data Content Rule.

Section 1104 of ACA amended HIPAA by introducing the requirement to adopt operating rules to support the business function of each HIPAA-adopted standard transaction. HHS has adopted operating rules for the eligibility, claim status, electronic remittance advice, and electronic funds transfer transactions. HHS has not yet adopted operating rules for health care claims, enrollment/disenrollment, premium payments, prior authorization for referrals, or health care claim attachments transactions.

Additional Opportunity To Provide Comment

In addition to the January 18–19, 2023, hearing and RFC, the Committee is collaborating with the Workgroup for Electronic Data Interchange (WEDI) in its role as advisor to the Secretary of Health and Human Services (HHS). WEDI is considered an authority on the use of health information technology (HIT) to improve health information exchange. Its membership includes a cross-section of HIPAA covered entities that implement the HIPAA standards and operating rules, as well as vendors and other subject matter experts who support those implementations. WEDI is supporting NCVHS' efforts to obtain input from a diverse group of stakeholders through educational programs, its annual conference October 25–27, 2022, and other organized information gathering activities. WEDI will compile and analyze this information and share the results with NCVHS by early December 2022. Additional information regarding the WEDI conference and its upcoming outreach efforts is available at: <https://www.wedi.org/about-us/> and <https://members.wedi.org/event-calendar>. The results of WEDI's upcoming information-gathering activities will be presented during NCVHS's January 18–19, 2023, hearing.
