SUPPLEMENTARY INFORMATION: EPA's Data Management and Analytics Platform (DMAP) is designed to help users better understand environmental data by allowing them to visualize them in graphics, like maps and pie charts, and combine them together across data systems. DMAP is available to EPA agency employees and partners who have a mission-based need to access the data therein. DMAP users maintain control over the workspaces created for them and may use the system to develop analytic products as needed to support mission needs. DMAP is populated by data from other EPA systems as well as data purchased under commercial license. EPA intends to expand DMAP to include personally identifiable information already collected by the EPA from these sources.
