[Docket No. AD22–10–000]

Reliability Technical Conference; Third Supplemental Notice of Technical Conference

As announced in the Notices of Technical Conference issued in this

proceeding on August 23, 2022, October 4, 2022, and October 28, 2022, the Federal Energy Regulatory Commission (Commission) will convene its annual Commissioner-led Reliability Technical Conference in the above-referenced proceeding on Thursday, November 10, 2022, from approximately 12:00 p.m. to 5:00 p.m. Eastern time. The conference will be held in-person at the Commission's headquarters at 888 First Street NE, Washington, DC 20426 in the Commission Meeting Room.

The purpose of this conference is to discuss policy issues related to the reliability and security of the Bulk-Power System.

The conference will be open for the public to attend, and there is no fee for attendance. Information about this technical conference can be found on the Events Calendar on the Commission's website, www.ferc.gov. The conference will also be transcribed. Transcripts will be available for a fee from Ace Reporting, (202) 347-3700.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov, call toll-free (866) 208-3372 (voice) or (202) 208-8659 (TTY), or send a fax to (202) 208-2106 with the required accommodations.

For more information about this technical conference, please contact Lodie White at Lodie.White@ferc.gov or (202) 502-8453. For information related to logistics, please contact Sarah McKinley at Sarah.Mckinley@ferc.gov or (202) 502-8368.

Dated: November 3, 2022.

Debbie-Anne A. Reese,
Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP22-466-000]

WBI Energy Transmission, Inc.; Notice of Availability of the Draft Environmental Impact Statement for the Proposed Wahpeton Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a draft environmental impact statement (EIS) for the Wahpeton Expansion Project, proposed by WBI Energy Transmission, Inc. (WBI Energy) in the above-

referenced docket. WBI Energy requests authorization to construct and operate the Wahpeton Expansion Project, which would provide an incremental 20,600 equivalent dekatherms per day of firm natural gas transportation capacity from WBI Energy's existing Mapleton Compressor Station to the proposed Montana Dakota Utilities (MDU)-Kindred and MDU-Wahpeton Border Stations to provide natural gas services to the communities of Kindred and Wahpeton, North Dakota.

The draft EIS assesses the potential environmental effects of the construction and operation of the Wahpeton Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). Commission staff concludes that approval of the proposed project, with the mitigation measures recommended in the EIS, would result in some adverse environmental impacts. Most of these impacts would be temporary and occur during construction (e.g., impacts on wetlands, land use, traffic, and noise). With the exception of climate change impacts that are not characterized in the EIS as significant or insignificant, Commission staff conclude that project effects would not be significant. As part of the analysis, Commission staff developed specific mitigation measures (included in the draft EIS as recommendations). Staff recommend that these mitigation measures be attached as conditions to any authorization issued by the Commission.

The Wild Rice River Route Alternative—Milepost (MP) 55 would affect landowners that have not been part of the FERC's environmental scoping process, as further discussed on page 4. Therefore, by this letter we are notifying these parties of our evaluation and requesting comments about this route alternative presented in section 3.3.1 of the draft EIS.

The draft EIS addresses the potential environmental effects of the construction and operation of the following project facilities, in Cass and Richland Counties, North Dakota:

- a new 60.5-mile-long, 12-inch-diameter natural gas pipeline;
- minor modifications to WBI Energy's existing Mapleton Compressor Station;
- a new MDU-Wahpeton Border Station;
- a new MDU-Kindred Border Station;
- seven new block valve settings;
- four new pig launcher/receiver settings; and
- ancillary facilities.

The Commission mailed a copy of the *Notice of Availability* of the draft EIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The draft EIS is only available in electronic format. It may be viewed and downloaded from FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environmental/environmental-documents>). In addition, the draft EIS may be accessed by using the eLibrary link on FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/elibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (i.e., CP22-466). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The draft EIS is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the draft EIS may do so. Your comments should focus on draft EIS's disclosure and discussion of potential environmental effects, measures to avoid or lessen environmental impacts, and the completeness of the submitted alternatives, information and analyses. To ensure consideration of your comments on the proposal in the final EIS, it is important that the Commission receive your comments on or before 5:00 p.m. Eastern Time on December 27, 2022.

For your convenience, there are four methods you can use to submit your comments to the Commission. The Commission will provide equal consideration to all comments received, whether filed in written form or provided verbally. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

1. You can file your comments electronically using the eComment feature on the Commission's website (www.ferc.gov) under the link to FERC
