

NCP, the Coast Guard and Environmental Protection Agency (EPA) provide the leadership of the National Response Team (NRT), the Regional Response Teams (RRT) and local Area Committees to engage the National Response System to verify threats (spill potential), identify risks (resources that might be harmed in a spill), and establish the strategies necessary to prepare for and respond to a pollution incident or event.

The Coast Guard and EPA are responsible for organizing and overseeing the Area Committees and each Area Committee is responsible for developing the ACP for their area of responsibility. ACPs outline the plan for oil and hazardous substance incident response at the local level. Additionally, ACPs describe the strategy for the Federal On-Scene Coordinator (FOOSC) to achieve a unified and coordinated response with federal, state, local, tribal, territorial, responsible party (RP), and other stakeholders. The predesignated FOOSC has the legal responsibility to both plan for and respond to oil or hazardous substance spills in their area of responsibility. Pursuant to Executive Order 12777 (of October 22, 1991) the EPA provides the FOOSC responsible for overseeing area contingency planning and response in the inland zone and the Coast Guard provides the FOOSC for the coastal zone.

As per the NCP, the coastal zone is defined as “*all United States waters subject to the tide, United States waters of the Great Lakes, specified ports and harbors on inland rivers, waters of the contiguous zone, other waters of the of the high seas subjected to the NCP, and the land surface or land substrata, ground waters, and ambient air proximal to those waters.*” ACPs are an integral component of the National Response System, as outlined in the NCP, which is comprised of federal, state, and local responders and private sector partners. The NRS provides a framework for coordination to respond effectively and efficiently to oil discharges; releases of hazardous substances, pollutants and contaminants; and radiological substances. As prescribed in the NCP, ACPs are part of a broader, layered system of plans designed to work in a synchronized manner. As required by the FWPCA, vessel and facility response plans must be consistent with the applicable ACPs for the areas in which they operate.

Please note that the proposed guidance is for a macro level ACP architecture only, and that the USCG recognizes that some degree of local variability is expected beneath the

macro level elements. The USCG will continue to advance additional, more detailed policy guidance supporting this new ACP architecture.

This notice is issued under authority of 5 U.S.C. 552(a).

Dated: November 4, 2022.

T.L. Wirth,

Captain, U.S. Coast Guard, Office of Marine Environmental Response Policy.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2022-0029; OMB No. 1660-NW152]

Agency Information Collection Activities: Proposed Collection; Comment Request; Logistics Supply Chain Management System Cloud (LSCMS-C) Access Control Form

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 60-Day notice of new collection and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the public to take this opportunity to comment on an existing information collection in use without an Office of Management and Budget (OMB) control number. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the Logistics Supply Chain Management System Cloud (LSCMS-C) Access Control Form, which is required for internal and external personnel who need access to the LSCMS-C operational system to process supply chain management transactions.

DATES: Comments must be submitted on or before January 9, 2023.

ADDRESSES: Submit comments at www.regulations.gov under Docket ID FEMA-2022-0029. Follow the instructions for submitting comments.

All submissions received must include the agency name and Docket ID, and will be posted, without change, to the Federal eRulemaking Portal at <http://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to read the Privacy and Security Notice that is available via a link on the homepage of www.regulations.gov.

FOR FURTHER INFORMATION CONTACT:

Natasha Hinkson, Logistics Management Directorate, Logistics System Division IT Support Branch Chief, 202-658-9394, Natasha.Hinkson@fema.dhs.gov. You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: The LSCMS-C system requires role-based access, which is based on an individual's position, to complete day to day supply chain management transactions for the Office of Response and Recovery's Logistics Management Directorate (LMD). Transactions include the ordering, tracking, monitoring, reporting, and shipping of FEMA assets and critical commodities both domestically and Outside the Continental United States (OCONUS) in support of disaster operations.

Authorized users of the LSCMS-C operational system will have access to minimal personally identifiable information, primarily point of contact information associated with the disaster commodities and assets order entry request for other end users to complete the fulfillment of FEMA orders for ordering, receiving, and delivery of the commodities and assets for FEMA Disaster Response and Recovery activities, as well as non-disaster activities for Mission Support.

The Transportation Service Providers (TSP) Registration Form is additionally required for Transportation Service Providers who would like to apply to be a part of the FEMA Standard Tender of Service (FEMA STOS) program for FEMA STOS specific information that will be included in their LSCMS-C profiles.

The authorities to collect and use this information are applicable to all Federal agencies under the Interstate Commerce Act, Federal Acquisition Regulation (FAR), and General Services Administration's Federal Management Regulation. The authorities include:

- Interstate Commerce Act, 49 U.S.C. 10721, 13712;
- Federal Acquisition Regulation, Subpart A-General; part 47, “Transportation”;
- Federal Management Regulation, 41 CFR parts 102-117, 102-118;
- The Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207;
- Homeland Security Act of 2002, 6 U.S.C. 311 *et seq.*

Collection of Information

Title: Logistics Supply Chain Management System Cloud (LSCMS-C) Access Control Form.

Type of Information Collection: Existing collection in use without an OMB control number.

OMB Number: 1660-NW152.

FEMA Forms: FEMA Form FF-145-FY-22-102 (formerly 119-0-0-20), Logistics Supply Chain Management System Cloud (LSCMS-C) Access Control Form; FEMA Form FF-145-FY-22-103, Transportation Service Providers (TSP) Registration Form.

Abstract: The Logistics Supply Chain Management System Cloud (LSCMS-C) Access Control Form is required for FEMA or Non-FEMA personnel who require access to the LSCMS-C operational system, enabling end users to process supply chain management transactions. The LSCMS-C Access Control Form is completed by internal and external users who require access. The Transportation Service Providers (TSP) Registration Form is additionally required for Transportation Service Providers who would like to apply to be a part of the FEMA Standard Tender of Service (FEMA STOS) program for FEMA STOS specific information that will be included in their LSCMS-C profiles.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 984.

Estimated Number of Responses: 2,952.

Estimated Total Annual Burden Hours: 885.6.

Estimated Total Annual Respondent Cost: \$25,531.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$3,775,509.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those

who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Millicent Brown Wilson,

Records Management Branch Chief, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111-24-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2022-0002; Internal Agency Docket No. FEMA-B-2281]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before February 8, 2023.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally,

the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2281, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of
