Natural Resources Conservation Service

[Docket No. NRCS-2022-0014]

Determination of the Primary Purpose of the New York Suffolk County Septic Improvement Program (SIP)

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice.

SUMMARY: USDA is providing public notice that the Secretary of Agriculture has determined that cost share payments made by the New York Suffolk County SIP are primarily for the purpose of conserving soil and water resources or protecting and restoring the environment. The Natural Resources

Conservation Service (NRCS) was assigned technical and administrative responsibility for reviewing the New York Suffolk County SIP and for making appropriate recommendations for the Secretary's determination of primary purpose. The Secretary's determination permits recipients of cost share payments to exclude such payments from gross income to the extent allowed by the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT:

Ronnie Maurer; telephone (202) 720-9733; or email: Ronnie.Maurer@usda.gov. Persons with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720-2600 (voice and text telephone (TTY)) or dial 711 for Telecommunications Relay Service (both voice and text telephone users can initiate this call from any telephone).

SUPPLEMENTARY INFORMATION:

Background

Under Section 126(a)(8) of the Internal Revenue Code of 1954, as amended (26 U.S.C. 126) gross income does not include the "excludable portion" of payments received under any program of a State, or a political subdivision of a State, under which payments are made to individuals primarily for the purpose of protecting or restoring the environment. In general, a cost share payment for selected conservation practices is exempt from Federal taxation if it meets three tests:

- (1) It was for a capital expense;
- (2) It does not substantially increase the operator's annual income from the property for which it is made; and
- (3) The Secretary of Agriculture certified that the payment was made primarily for conserving soil and water resources, protecting, or restoring the environment, improving forests, or providing habitat for wildlife.

The Secretary of Agriculture evaluates a conservation program on the basis of criteria specified in 7 CFR part 14 and makes a "primary purpose" determination for the payments made under the conservation program. The objective of the determination made under part 14 is to provide maximum conservation, environmental, forestry improvement, and wildlife benefits to the general public from the operation of applicable programs. Final determinations are made on the basis of program, category of practices, or individual practices.

NRCS was assigned technical and administrative responsibility for reviewing the New York Suffolk County SIP and for making appropriate
