BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Comment Request

AGENCY: Center for Behavioral Health Statistics and Quality; Substance Abuse and Mental Health Services Administration; HHS.

ACTION: Notice.

SUMMARY: Center for Behavioral Health Statistics and Quality (CBHSQ) within the Substance Abuse and Mental Health Services Administration (SAMHSA) invites the general public and other Federal agencies to comment on a proposed information collection. SAMHSA plans to collect information from the public to fulfill its data security requirements when providing access to restricted use microdata for the purpose of evidence building. SAMHSA's data security agreements and other paperwork along with the corresponding security protocols allow SAMHSA to maintain careful controls on confidentiality and privacy, as required by law. The purpose of this notice is to allow for 60 days of public comment on the proposed data security information collection, prior to submission of the information collection request (ICR) to the Office of Management and Budget (OMB).

DATES: Written comments on this notice must be received by January 23, 2023 to be assured of consideration. Comments received after that date will be

considered to the extent practicable. Send comments to the address below.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of SAMHSA, including whether the information will have practical utility; (b) the accuracy of SAMHSA's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT:

Carlos Graham, SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Room 15E57-A, Rockville, Maryland 20857, OR email a copy to Carlos.Graham@samhsa.hhs.gov.

SUPPLEMENTARY INFORMATION: The Foundations for Evidence-Based Policymaking Act of 2018 mandates that the Office of Management and Budget (OMB) establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. While the adoption of the SAP is required for statistical agencies and units designated under the Confidential Information Protection and Statistical Efficiency Act (CIPSEA), it is recognized that other agencies and organizational units within the Executive branch may benefit from the adoption of the SAP to accept applications for access to confidential data assets. The SAP is to be a process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply to access confidential data assets held by a federal statistical agency or unit for the purposes of developing evidence. With the Interagency Council on Statistical Policy (ICSP) as advisors, the entities upon whom this requirement is levied are working with the SAP Project Management Office (PMO) and with OMB to implement the SAP. The SAP Portal is to be a single web-based common application for the public to request access to confidential data assets from federal statistical agencies and units. The National Center for Science and Engineering Statistics (NCSES), within the National Science Foundation (NSF), submitted a **Federal Register**

Notice in September 2022 announcing plans to collect information through the SAP Portal (87 FR 53793).

Once an application for confidential data is approved through the SAP Portal, SAMHSA will collect information to meet its data security requirements. This collection will occur outside of the SAP Portal.

Title of collection: Data Security Requirements for Accessing Confidential Data.

OMB Control Number: 3145-NEW.

Expiration Date of Current Approval: Not Applicable.

Type of Request: Intent to seek approval to collect information from the public to fulfill [agency name] security requirements allowing individuals to access confidential data assets for the purposes of building evidence.

Abstract: Title III of the Foundations for Evidence-Based Policymaking Act of 2018 (hereafter referred to as the Evidence Act) mandates that OMB establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. Specifically, the Evidence Act requires OMB to establish a common application process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply for access to confidential data assets collected, accessed, or acquired by a statistical agency or unit. This new process will be implemented while maintaining stringent controls to protect confidentiality and privacy, as required by law.

Data collected, accessed, or acquired by statistical agencies and units is vital for developing evidence on conditions, characteristics, and behaviors of the public and on the operations and outcomes of public programs and policies. This evidence can benefit the stakeholders in the programs, the broader public, as well as policymakers and program managers at the local, State, Tribal, and National levels. The many benefits of access to data for evidence building notwithstanding, SAMHSA is required by law to maintain careful controls that allow it to minimize disclosure risk while protecting confidentiality and privacy. The fulfillment of SAMHSA's data security requirements places a degree of burden on the public, which is outlined below.

The SAP Portal is a web-based application for the public to request access to confidential data assets from federal statistical agencies and units. The objective of the SAP Portal is to increase public access to confidential

data for the purposes of evidence building and reduce the burden of applying for confidential data. Once an individual's application in the SAP Portal has received a positive determination, the data-owning agency(ies) or unit(s) will begin the process of collecting information to fulfill their data security requirements.

The paragraphs below outline the SAP Policy, the steps to complete an application through the SAP Portal, and the process for agencies to collect information fulfilling their data security requirements.

The SAP Policy

At the recommendation of the ICSP, the SAP Policy establishes the SAP to be implemented by statistical agencies and units and incorporates directives from the Evidence Act. The policy is intended to provide guidance as to the application and review processes using the SAP Portal, setting forth clear standards that enable statistical agencies and units to implement a common application form and a uniform review process. The SAP Policy was submitted to the public for comment in January 2022 (87 FR 2459). The policy is currently under review and has not yet been finalized.

The SAP Portal

The SAP Portal is an application interface connecting applicants seeking data with a catalog of data assets owned by the federal statistical agencies and units. The SAP Portal is not a new data repository or warehouse; confidential data assets will continue to be stored in secure data access facilities owned and hosted by the federal statistical agencies and units. The Portal will provide a streamlined application process across agencies, reducing redundancies in the application process. This single SAP Portal will improve the process for applicants, tracking and communicating the application process throughout its lifecycle. This reduces redundancies and burden on applicants that request access to data from multiple agencies. The SAP Portal will automate key tasks to save resources and time and will bring agencies into compliance with the Evidence Act statutory requirements.

Data Discovery

Individuals begin the process of accessing restricted use data by discovering confidential data assets through the SAP data catalog, maintained by federal statistical agencies at www.researchdatagov.org. Potential applicants can search by agency, topic, or keyword to identify data of interest or relevance. Once they

have identified data of interest, applicants can view metadata outlining the title, description or abstract, scope and coverage, and detailed methodology related to a specific data asset to determine its relevance to their research.

While statistical agencies and units shall endeavor to include metadata in the SAP data catalog on all confidential data assets for which they accept applications, it may not be feasible to include metadata for some data assets (e.g., potential curated versions of administrative data). A statistical agency or unit may still accept an application through the SAP Portal even if the requested data asset is not listed in the SAP data catalog.

SAP Application Process

Individuals who have identified and wish to access confidential data assets will be able to apply for access through the SAP Portal when it is released to the public in late 2022. Applicants must create an account and follow all steps to complete the application. Applicants begin by entering their personal, contact, and institutional information, as well as the personal, contact, and institutional information of all individuals on their research team. Applicants proceed to provide summary information about their proposed project, to include project title, duration, funding, timeline, and other details including the data asset(s) they are requesting and any proposed linkages to data not listed in the SAP data catalog, including non-federal data sources. Applicants then proceed to enter detailed information regarding their proposed project, including a project abstract, research question(s), literature review, project scope, research methodology, project products, and anticipated output. Applicants must demonstrate a need for confidential data, outlining why their research question cannot be answered using publicly available information.

Submission for Review

Upon submission of their application, applicants will receive a notification that their application has been received and is under review by the data owning agency or agencies (in the event where data assets are requested from multiple agencies). At this point, applicants will also be notified that application approval does not alone grant access to confidential data, and that, if approved, applicants must comply with the data-owning agency's security requirements outside of the SAP Portal, which may include a background check.

In accordance with the Evidence Act and the direction of the ICSP, agencies will approve or reject an application within a prompt timeframe. In some cases, agencies may determine that additional clarity, information, or modification is needed and request the applicant to "revise and resubmit" their application.

Data discovery, the SAP application process, and the submission for review are planned to take place within the web-based SAP Portal. As noted above, the notice announcing plans to collect information through the SAP Portal has been published separately (87 FR 53793).

Access to Restricted Use Data

In the event of a positive determination, the applicant will be notified that their proposal has been accepted. The positive or final adverse determination concludes the SAP Portal process. In the instance of a positive determination, the data-owning agency (or agencies) will contact the applicant to provide instructions on the agency's security requirements that must be completed to gain access to the confidential data. The completion and submission of the agency's security requirements will take place outside of the SAP Portal.

Collection of Information for Data Security Requirements

In the instance of a positive determination for an application requesting access to an SAMHSA confidential data asset, SAMHSA will contact the applicant(s) to initiate the process of collecting information to fulfill their security requirements. These include additional requirements necessary for the statistical agency or unit to place the applicant(s) in a trusted category that may include the applicant's successful completion of a background investigation, confidentiality training, nondisclosure, and data use agreements.

SAMHSA's data security requirements include the collection of the following information:

- *Researcher's information (personal)*: Name (Last, First, Middle), DOB, citizenship status, home address, home/cell phone number, personal email, Census Special Sworn Status completion.
- *Researcher's employer information*: Employer name, employer address, work phone number, work address, name of supervisor, supervisor's phone number, supervisor's email.
- *Project information*: Title of project, time period researcher expects to be at

the Research Data Center (RDC), signature of researcher, notary signature.

Estimate of Burden: The amount of time to complete the agreements and other paperwork that comprise SAMHSA's security requirements will vary based on the confidential data assets requested and the access modality. To obtain access to SAMHSA's confidential data assets, it is estimated that the average time to complete and submit SAMHSA's data security agreements and other paperwork is 40 minutes. This estimate does not include the time needed to complete and submit an application within the SAP Portal. All efforts related to SAP Portal applications occur prior to and separate from SAMHSA's effort to collect information related to data security requirements.

The expected number of applications in the SAP Portal that receive a positive determination from SAMHSA in a given year may vary. Overall, per year, SAMHSA estimates it will collect data security information for 15 application submissions that received a positive determination within the SAP Portal. SAMHSA estimates that the total burden for the collection of information for data security requirements over the course of the three-year OMB clearance will be about 30 hours and, as a result, an average annual burden of 10 hours.

Carlos Graham,

Reports Clearance Officer.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2022-0056]

Homeland Security Advisory Council; Meeting

AGENCY: The Department of Homeland Security (DHS), The Office of Partnership and Engagement (OPE).

ACTION: Notice of open Federal Advisory Committee meeting.

SUMMARY: The Homeland Security Advisory Council (HSAC) will hold a public meeting on Tuesday, December 6, 2022. The meeting will be open to the public via web conference.

DATES: The meeting will take place from 2 p.m. ET to 4 p.m. ET on Tuesday, December 6, 2022. Please note that the meeting may end early if the Council has completed its business.

ADDRESSES: The HSAC meeting will be held at the Federal Emergency Management Agency (FEMA)

headquarters in Washington, DC. Members of the public interested in participating may do so by following the process outlined below. The public will be in listen-only mode except for the public comment portion of the meeting. Written comments can be submitted from November 28, 2022 to December 6, 2022. Comments must be identified by Docket No. DHS-2022-0056 and may be submitted by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the instructions for submitting comments.

- **Email:** HSAC@hq.dhs.gov. Include Docket No. DHS-2022-0056 in the subject line of the message.

- **Mail:** Rebecca Sternhell, Executive Director of the Homeland Security Advisory Council, Office of Partnership and Engagement, Mailstop 0385, Department of Homeland Security, 2707 Martin Luther King Jr Ave. SE, Washington, DC 20528.

Instructions: All submissions received must include the words "Department of Homeland Security" and "DHS-2022-0056," the docket number for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided. You may wish to review the Privacy and Security Notice found via a link on the homepage of www.regulations.gov.

Docket: For access to the docket to read comments received by the Council, go to <http://www.regulations.gov>, search "DHS-2022-0056," "Open Docket Folder" to view the comments.

FOR FURTHER INFORMATION CONTACT: Rebecca Sternhell at 202-891-2876 or HSAC@hq.dhs.gov.

SUPPLEMENTARY INFORMATION: Notice of this meeting is given under Section 10(a) of the Federal Advisory Committee Act (FACA), Public Law 92-463 (5 U.S.C. Appendix), which requires each FACA committee meeting to be open to the public unless the President, or the head of the agency to which the advisory committee reports, determines that a portion of the meeting may be closed to the public in accordance with 5 U.S.C. 552b(c).

The HSAC provides organizationally independent, strategic, timely, specific, actionable advice, and recommendations to the Secretary of Homeland Security on matters related to homeland security. The Council consists of senior executives from government, the private sector, academia, law enforcement, and non-governmental organizations. The meeting will include:

(1) Remarks from Senior DHS leaders,

(2) Introduction and swearing in of new members,

(3) Updates from new subcommittees, and

(4) Receipt of and vote on the draft report from the Customer Experience and Service Delivery Subcommittee.

Members of the public will be in listen-only mode except during the public comment session. Members of the public may register to participate in this Council meeting via web conference under the following procedures. Each individual must provide their full legal name and email address no later than 5 p.m. ET on Friday, December 2, 2022 to Rebecca Sternhell of the Council via email to HSAC@hq.dhs.gov or via phone at 202-891-2876. Members of the public who have registered to participate will be provided the weblink after the closing of the public registration period and prior to the start of the meeting.

For information on services for individuals with disabilities, or to request special assistance, please email HSAC@hq.dhs.gov by 5 p.m. ET on December 2, 2022 or call 202-891-2876. The HSAC is committed to ensuring all participants have equal access regardless of disability status. If you require a reasonable accommodation due to a disability to fully participate, please contact Rebecca Sternhell at 202-891-2876 or HSAC@hq.dhs.gov as soon as possible.

Dated: November 16, 2022.

Rebecca K. Sternhell,

Executive Director, Homeland Security Advisory Council, Department of Homeland Security.

BILLING CODE 9112-FN-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-7056-N-52; OMB Control No. 2502-0305]

60-Day Notice of Proposed Information Collection: Management Certification & Entity Profile

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice.

SUMMARY: HUD is seeking approval from the Office of Management and Budget (OMB) for the information collection described below. In accordance with the Paperwork Reduction Act, HUD is requesting comment from all interested parties on the proposed collection of information. The purpose of this notice is to allow for 60 days of public comment.
