Type of Request: Existing collection currently in use without an OMB Control Number.

Number of Respondents: 320.

Responses per Respondent: 1.

Needs and Uses: Burial at Sea is a time-honored tradition used as a mechanism to honor the service of a veteran. The OPNAV Form 5360/1, “Burial at Sea Request/Authorization” allows a family member to request a burial at sea for a veteran, and lists the documentation required to enable the Navy to honor the request. This information is required to ensure the person making the request is the legal person authorized to direct the disposition of the deceased.

The OPNAV Form 5360/2, “Burial at Sea Port Checklist,” is used only when the requested remains are fully casketed. Certain preparation is required for these remains to ensure adequate safeguarding during transportation, storage aboard the ship until the event, and to ensure the casket sinks during the ceremony. The funeral home responsible for the storage, preparation and delivery to the port uses the checklist to prepare and inspect the casketed remains prior to transport.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The MHSP Program provides competitive grants to support and demonstrate innovative partnerships to train school-based mental health services providers (as defined in section 4102 of the Elementary and Secondary Education Act of 1965, as amended (ESEA)) (services providers) for employment in schools and local educational agencies (LEAs). The goal of this program is to increase the number and diversity of high-quality, trained providers available to address the shortages of mental health service professionals in schools served by high-need LEAs (as defined in this notice). The partnerships must include (1) one or more high-need LEAs or a State educational agency (SEA) on behalf of one or more high-need LEAs and (2) one or more eligible institutions of higher education (eligible IHE) (as defined in this notice).

Partnerships must provide opportunities to place postsecondary education graduate students in school-based mental health fields into high-need schools (as defined in this notice) served by the participating high-need LEAs to complete required field work, credit hours, internships, or related training, as applicable, for the degree or credential program of each student. In addition to the placement of graduate students, grantees may also develop mental health career pathways as early as secondary school, through career and technical education opportunities, or through paraprofessional support degree programs at local community or technical colleges.
