BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XC520]

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 74 Assessment Webinar III for Gulf of Mexico Red Snapper.

SUMMARY: The SEDAR 74 assessment of Gulf of Mexico red snapper will consist of a Data workshop, a series of Assessment webinars, and a Review workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 74 Assessment Webinar III will be held Friday, December 16, 2022, from 1 p.m. until 4 p.m., eastern time.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data

Workshop is a data report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses.

The product of the Assessment Process is a stock assessment report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data.

Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion for the webinar are as follows:

Participants will review data and discuss modeling approaches for use in the assessment of Gulf of Mexico red snapper.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 22, 2022.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 76 South Atlantic Black Sea Bass Assessment Webinar 3.

SUMMARY: The SEDAR 76 assessment of the South Atlantic stock of black sea bass will consist of a series of assessment webinars. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 76 South Atlantic Black Sea Bass Assessment Webinar 3 has been scheduled for Friday, December 16, 2022, from 9 a.m. to 12 p.m., eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at Kathleen.Howington@safmc.net.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4371; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions,

have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and State and Federal agencies.

The items of discussion at the SEDAR 76 South Atlantic Black Sea Bass Assessment Webinar 3 are as follows: Discuss any remaining data issues, model development, and model setup.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council

office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Fishing Capacity Reduction Program for the Longline Catcher Processor Subsector of the Bering Sea and Aleutian Islands Non-Pollock Groundfish Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of fee rate adjustment.

SUMMARY: NMFS issues this notice to inform the public that there will be a decrease of the fee rate required to repay the reduction loan financing the non-pollock groundfish fishing capacity reduction program. Effective January 1, 2023, NMFS is decreasing the Loan A fee rate to \$0.020 per pound to ensure timely repayment of the loan. The fee rate for Loan B will remain unchanged at \$0.001 per pound. The decreased fee rate is due to the 15 percent increase in non-pollock groundfish Total Allowable Catch (TAC) for 2023 since the fee rate was raised in 2021.

DATES: The non-pollock groundfish program fee rate decrease will begin with landings on January 1, 2023. The first due date for fee payments with the decreased rate will be February 15, 2023.

ADDRESSES: Send questions about this notice to Michael A. Sturtevant, Program Manager, Financial Services Division, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910-3282.

FOR FURTHER INFORMATION CONTACT: Michael A. Sturtevant, (301) 427-8782.

SUPPLEMENTARY INFORMATION:

Background

Sections 312(b)–(e) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1861 *et seq.*) generally authorizes fishing capacity

reduction programs. In particular, section 312(d) authorizes industry fee systems for repaying reduction loans which finance reduction program costs. Subpart L of 50 CFR part 600 is the framework rule generally implementing section 312(b)–(e). Sections 1111 and 1112 of the Merchant Marine Act, 1936 (46 App. U.S.C. 1279f and 1279g) generally authorize reduction loans.

Enacted on December 8, 2004, section 219, Title II, of FY 2005 Appropriations Act, Public Law 104-447 (Act) authorizes a fishing capacity reduction program implementing capacity reduction plans submitted to NMFS by catcher processor subsectors of the Bering Sea and Aleutian Islands (BSAI) non-pollock groundfish fishery (reduction fishery) as set forth in the Act.

The longline catcher processor subsector (Longline Subsector) is among the catcher processor subsectors eligible to submit to NMFS a capacity reduction plan under the terms of the Act. The longline subsector non-pollock groundfish reduction program's objective was to reduce the number of vessels and permits endorsed for longline subsector of the non-pollock groundfish fishery. All post-reduction fish landings from the reduction fishery are subject to the longline subsector non-pollock groundfish program's fee.

NMFS proposed the implementing notice on August 11, 2006 (71 FR 46364), and published the final notice on September 29, 2006 (71 FR 57696). NMFS allocated the \$35,000,000 reduction loan (A Loan) to the reduction fishery and this loan is repayable by fees from the fishery.

On September 24, 2007, NMFS published in the **Federal Register** (72 FR 54219), the final rule to implement the industry fee system for repaying the non-pollock groundfish program's reduction loan and established October 24, 2007, as the effective date when fee collection and loan repayment began. The regulations implementing the program are located at § 600.1012.

NMFS published a final rule to implement a second \$2,700,000 reduction loan (B Loan) for this fishery in the **Federal Register** on September 24, 2012 (77 FR 58775). The loan was disbursed December 18, 2012 with fee collection of \$0.001 per pound to begin January 1, 2013. This fee is in addition to the A Loan fee.

Purpose

The purpose of this notice is to adjust the fee rate for the reduction fishery in accordance with the framework rule's § 600.1013(b). Section 600.1013(b) directs NMFS to recalculate the fee rate
