

well the multiple aspects of these phases. *i.e.* the communications aspect, role of imagery in operations, in-space safety protocols such as conjunction assessment and collision avoidance, and any others participants believe are appropriate to be considered.

Pursuant to Executive Order 14056 and Title V of Public Law 100–685, National Space Council is soliciting public input through these virtual listening sessions to obtain information and recommendations from a wide array of stakeholders, including representatives from diverse industries, academia, other relevant organizations and institutions, and the general public. Virtual listening sessions will inform National Space Council Members as they develop applicable national space policy as described herein.

The virtual listening session focuses on the theme of the previously held second session, as described below:

1. Session on Approaches for Authorization & Supervision

Article VI of the Outer Space Treaty obligates the United States to authorize and provide continuous supervision for the space activities of its non-governmental entities. Authorization refers to governmental permission to perform a mission or activity and supervision means ongoing governmental oversight of some sort or degree sufficient to ensure consistency with the Outer Space Treaty. The goal is a clear, predictable, and flexible regulatory and policy environment for private sector space activities that will grow and evolve in response to technological advancement and enable continued sustainability of the space environment. This requires understanding of the operational phase of these missions.

Participants are invited to share information about their experiences and opinions about obtaining authorization to perform their current and planned activities and if/how these activities are being supervised, if current, and ideas for supervision of planned missions, to include incentives, monitoring, reporting, and others.

Speakers will have 3 minutes each to present comments and participants will be allowed to provide further details and perspectives in written format within 45 days of this publication.

Dated: 22 November 2022.

Director of Commercial Space Policy,
National Space Council.

FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 115399]

Privacy Act of 1974; Matching Program

AGENCY: Federal Communications Commission.

ACTION: Notice of establishment of a matching program.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (“Privacy Act”), this document announces the establishment of a computer matching program the Federal Communications Commission (“FCC” or “Commission” or “Agency”) and the Universal Service Administrative Company (USAC) will conduct with the Wisconsin Department of Health Services and Wisconsin Department of Revenue (“DHSDOR”). The purpose of this matching program is to verify the eligibility of applicants to and subscribers of the Universal Service Fund (USF) Lifeline program, which is administered by USAC under the direction of the FCC. More information about this program is provided in the **SUPPLEMENTARY INFORMATION** section below.

DATES: Written comments are due on or before December 29, 2022. This computer matching program will commence on December 29, 2022, and will conclude 18 months later.

ADDRESSES: Send comments to Elliot Tarloff, FCC, 45 L Street NE, Washington, DC 20554, or Privacy@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Elliot Tarloff at 202–418–0886 or Privacy@fcc.gov.

SUPPLEMENTARY INFORMATION: The Lifeline program provides support for discounted broadband and voice services to low-income consumers. Lifeline is administered by the Universal Service Administrative Company (USAC) under FCC direction. Consumers qualify for Lifeline through proof of income or participation in a qualifying program, such as Medicaid, the Supplemental Nutritional Assistance Program (SNAP), Federal Public Housing Assistance, Supplemental Security Income (SSI), Veterans and Survivors Pension Benefit, and/or various Tribal-specific federal assistance programs. In a Report and Order adopted on March 31, 2016, the Commission ordered USAC to create a National Lifeline Eligibility Verifier (“National Verifier”), including the National Lifeline Eligibility Database (LED), that would match data about

Lifeline applicants and subscribers with other data sources to verify the eligibility of an applicant or subscriber. The Commission found that the National Verifier would reduce compliance costs for Lifeline service providers, improve service for Lifeline subscribers, and reduce waste, fraud, and abuse in the program. The purpose of this particular matching program is to verify Lifeline eligibility by establishing that applicants or subscribers in Wisconsin are enrolled in the SNAP, Medicaid, SSI, or Income Verification programs.

Participating Non-Federal Agency

- Wisconsin Department of Health Services and Wisconsin Department of Revenue.

Authority for Conducting the Matching Program

47 U.S.C. 254; 47 CFR 54.400 *et seq.*; Lifeline and Link Up Reform and Modernization, et al., Third Report and Order, Further Report and Order, and Order on Reconsideration, 31 FCC Rcd 3962, 4006–21, paras. 126–66 (2016) (2016 Lifeline Modernization Order).

Purpose(s)

In the 2016 Lifeline Modernization Order, the FCC required USAC to develop and operate the National Verifier to improve efficiency and reduce waste, fraud, and abuse in the Lifeline program. The stated purpose of the National Verifier is “to increase the integrity and improve the performance of the Lifeline program for the benefit of a variety of Lifeline participants, including Lifeline providers, subscribers, states, community-based organizations, USAC, and the Commission.” 31 FCC Rcd 3962, 4006, para. 126. To help determine whether Lifeline applicants and subscribers are eligible for Lifeline benefits, the Order contemplates that the USAC-operated LED will communicate with information systems and databases operated by other Federal and State agencies. *Id.* at 4011–2, paras. 135–7.

Categories of Individuals

The categories of individuals whose information is involved in the matching program include, but are not limited to, those individuals (residing in a single household) who have applied for Lifeline benefits; are currently receiving Lifeline benefits; are individuals who enable another individual in their household to qualify for Lifeline benefits; are minors whose status qualifies a parent or guardian for Lifeline benefits; are individuals who have received Lifeline benefits; or are

individuals acting on behalf of an eligible telecommunications carrier (ETC) who have enrolled individuals in the Lifeline program.

Categories of Records

The categories of records involved in the matching program include, but are not limited to, the last four digits of the Lifeline applicant's Social Security Number, and first and last name. The National Verifier will transfer these data elements to the Wisconsin Department of Health Services and Wisconsin Department of Revenue which will respond either "yes" or "no" that the individual is enrolled in a Lifeline-qualifying assistance program: SNAP, Medicaid, SSI, or Income Verification.

System(s) of Records

The USAC records shared as part of this matching program reside in the Lifeline system of records, FCC/WCB-1, Lifeline Program, a notice of which the FCC published at 86 FR 11526 (Feb. 25, 2021).

Final Approval Under OMB Delegated Authority of the Extension for Three Years, With Revision, of the Following Information Collection

Collection title: Interchange Transaction Fees Survey.

Collection identifier: FR 3064.

OMB control number: 7100-0344.

Effective date: The revisions will be implemented starting from the next iteration of the Debit Card Issuer Survey.

Frequency: Annual.

Respondents: Debit card issuers and payment card networks.

Estimated number of respondents: FR 3064a, 527; FR 3064b, 15.

Estimated average hours per response: FR 3064a, 160; FR 3064b, 75.

Estimated annual burden hours: FR 3064a, 84,320; FR 3064b, 1,125.

General description of collection: The FR 3064 consists of two parts: the Debit Card Issuer Survey (FR 3064a) and the Payment Card Network Survey (FR 3064b).

The FR 3064a collects data from issuers of debit cards (including general-use prepaid cards) that, together with their affiliates, have assets of \$10 billion or more. The 3064a collects information regarding the volume and value of debit card transactions; chargebacks and returns; costs of authorization, clearance, and settlement of debit card transactions; other costs incurred in connection with particular debit card transactions; fraud prevention costs and fraud losses; and interchange fee revenue.¹

The FR 3064b collects data from payment card networks. The survey includes the volume and value of debit card transactions; interchange fees; network fees; and payments and incentives paid by networks to acquirers, merchants, and issuers.²

The data from the FR 3064a and FR 3064b are used to fulfill a statutory requirement that the Board disclose certain information regarding debit card transactions on a biennial basis.³ In addition, the Board uses data from the FR 3064b to publicly report on an annual basis the extent to which networks have established separate
