

SecDef during times of war or national emergency.

Application Criteria

Section 53403(b)(2)(A) of Title 46, United States Code directs the Secretary in consultation with the SecDef to consider applicant vessel qualifications as they relate to 46 CFR 294.9 and give priority to applications based on the following criteria:

(1) Vessel capabilities, as established by SecDef;

(2) Applicant's record of vessel ownership and operation of tanker vessels; and

(3) Applicant's citizenship, with preference for Section 50501 Citizens.

Vessel Requirements

Acceptable vessels for a TSP Operating Agreement must meet the requirements of 46 U.S.C. 53402(b) and 46 CFR 294.9. The Commander, USTRANSCOM, has provided vessel suitability standards for eligible TSP vessels for use during the application selection process. The following suitability standards, consistent with the requirements of 46 U.S.C. 53402(b)(5), will apply to vessel applications:

- Medium Range (MR) tankers between 30,000–60,000 deadweight tons, with fuel cargo capacity of 230,000 barrels or greater.
- Deck space and size to accept installation of Consolidation (CONSOL) stations, two on each side for a total of four stations.
- Ability to accommodate up to an additional 12 crew for CONSOL, security, and communication crew augmentation.
- Communication facilities capable of integrating secure communications equipment.
- Does not engage in commerce or acquire any supplies or services if any proclamation, Executive order, or statute administered by Office of Foreign Assets Control (OFAC), or if OFAC's implementing regulations at 31 CFR Chapter V, would prohibit such a transaction by a person subject to the jurisdiction of the United States, except as authorized by the OFAC in the Department of the Treasury.
- Operate in the Indo-Pacific region.
- Maximum draft of no more than 44 feet. Preference will be given to vessels that can transport the most fuel at the shallowest draft.
- Sustained service speed of at least 14 knots, with higher speeds preferred.
- Carry only clean refined products.
- Capable of carrying more than two separated grades of refined petroleum products with double valve protection

between tanks. Additionally, the vessel must meet the standards of 46 U.S.C. 53401(4).

National Security Requirements

The applicants chosen to receive a TSP Operating Agreement will be required to enter into an Emergency Preparedness Agreement (EPA) under 46 U.S.C. 53407, or such other agreement as may be approved by the Secretaries. The current EPA approved by the Secretary and SecDef is the Voluntary Tanker Agreement (VTA), publicly available for review at 87 FR 67119 (November 7, 2022).

Documentation

A vessel chosen to receive the TSP Operating Agreement, must be documented as a U.S.-flag vessel under 46 U.S.C., chapter 121. An applicant proposing a foreign-flag vessel must demonstrate the vessel owner's intent to have the vessel so documented and must demonstrate that the vessel is so documented by the time the applicant enters into a TSP Operating Agreement for the vessel. Proof of U.S. Coast Guard vessel documentation and all relevant charter and management agreements for a chosen vessel must be approved by MARAD before the vessel will be eligible to receive TSP payments.

Vessel Operation

A vessel selected for award of a TSP Operating Agreement must be operated in foreign commerce, in mixed foreign commerce and domestic trade of the United States permitted under a registry endorsement issued under 46 U.S.C. 12111, or between U.S. ports and those points identified in 46 U.S.C. 55101(b), or in foreign-to-foreign commerce, and must not otherwise operate in the coastwise trade of the United States.

Protection of Confidential Commercial or Financial Information

If the application includes information that the applicant considers to be a trade secret or confidential commercial or financial information, the applicant should do the following: (1) Note on the front cover that the submission "Contains Confidential Commercial or Financial Information (CCFI)"; (2) mark each affected page "CCFI"; and (3) highlight or otherwise denote the CCFI portions. MARAD will protect such information from disclosure to the extent allowed under applicable law. In the event MARAD receives a Freedom of Information Act (FOIA) request for the information, procedures described in the Department's FOIA regulation at 49 CFR 7.29 will be followed. Only information

that is ultimately determined to be confidential under that procedure will be exempt from disclosure under FOIA.

Award of Operating Agreements

MARAD does not guarantee the award of TSP Operating Agreements in response to applications submitted under this Notice. In the event that no awards are made, or an application is not selected for an award, the applicant will be provided with a written reason why the application was denied, consistent with the requirements of 46 U.S.C. 53403.

This treatment prevents against parasitic infestation by sea lice that is highly destructive to the salmon’s health.” Cooke proposes to operate the vessels off Maine’s North Atlantic Coast during the 2023 calendar year, from January 1 to December 31, 2023. Further details of Cooke’s proposed operations may be found in the waiver request posted in the docket.
