

the surface at Visalia Municipal Airport, CA.

The Class E airspace designated as a surface area should be expanded from 3.5 nautical miles (NM) to 4 (NM), to properly contain aircraft conducting circling maneuvers. Additionally, the Class E2 extension northwest of the airport is not required and should be removed.

The Class E airspace encircling the airport within a 5-mile radius is excessive and should be reduced. Class E airspace beginning at 700 feet above the surface is designed to contain departing IFR operations until they reach 1,200 feet above the surface, and a 4.5-mile radius encircling the airport is more appropriate. The two existing Class E5 extensions are currently described in relation to the now decommissioned Visalia very high frequency omnidirectional range (VOR) and require modifications. The first extension is within 2.1 miles each side of the 138° bearing from the airport extending from the 4.5-mile radius to 6.6 miles southeast of the airport. The second extension is within 1.8 miles each side of the 314° bearing, from the 4.5-mile radius to 6.6 miles northwest of the airport.

Finally, this action proposes administrative modifications to the airport's legal descriptions. The current Class E5 airspace description includes airspace for Mefford Field Airport, Tulare, CA. The FAA is establishing independent airspace for Mefford Field Airport and the additional airspace should be removed from Visalia Municipal Airport's airspace description. The Visalia VOR/distance measuring equipment (DME) navigational aid should be removed from the Class E2 text header and airspace description. It was decommissioned on March 25th, 2022 and is not needed to describe airspace. The Class E2 legal description should also be updated to replace the outdated use of the phrases "Notice to Airmen" and "Airport/Facility Directory." These phrases should be amended to read "Notice to Air Missions" and "Chart Supplement," respectively, to match the FAA's current nomenclature. Finally, Swanson Ranch NR1 Airport should be removed from the Class E5 text header and airspace description, as the airport no longer exists.

Class E2 and E5 airspace designations are published in paragraphs 6002 and 6005, respectively, of FAA Order 7400.11G, dated August 19, 2022, and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be

published subsequently in FAA Order JO 7400.11, which is published annually and becomes effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT regulatory policies and procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule—when promulgated—would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, prior to any FAA final regulatory action.

FOR FURTHER INFORMATION CONTACT:

Phong T. Quang at (202) 268–2857 or Garry Rodriguez at (202) 268–7281.

SUPPLEMENTARY INFORMATION: Currently, the Postal Service has no provision for providing a refund to customers who were eligible for Group E (free) P.O. Box™ service under DMM 508.4.5.2 and paid for P.O. Box service. Informal policies were established to refund customers who paid for P.O. Box service despite their eligibility for Group E P.O. Box service on an *ad hoc* basis but were inconsistent.

To ensure uniform treatment of customers who were not provided Group E P.O. Box service, the Postal Service is proposing to provide a refund policy if it has been determined that a customer paying for P.O. Box service is entitled to Group E P.O. Box service. A refund of prorated fees may be issued for each full consecutive month preceding the determination, up to a maximum of 24 months. Interest will not be paid on the amount refunded.

The Postal Service is also proposing to make a minor revision to the text in 508.4.5.2c for clarity in the standard.

We believe the proposed revisions will provide customers with a more efficient mailing experience.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions to *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes.
