

Additionally, certain equipment and services produced or provided by particular vendors in this marketplace have been deemed to pose an unacceptable risk to the national security of the United States.¹ Some of these vendors, including Chinese telecommunications companies Huawei Technologies Company and ZTE Corporation have been shown to have links to the Chinese government and/or the Chinese Communist Party, giving rise to security risks.² Those risks are compounded by financial support from the government of China and preferential access to the Chinese market, which enable them to offer lower cost financing terms and, in some cases, below-market export credit subsidies to foreign mobile operators to purchase their equipment. The United States Government is working to mobilize the full range of department and agency tools and coordinating with like-minded partners to support foreign mobile network operators in procuring trusted, secure RAN.

To help inform development and administration of the Innovation Fund grant program, NTIA has established multiple avenues for the public to offer input, including through a Request for Comment also published today as well as this public virtual listening session. NTIA seeks input from all interested stakeholders—including private industry, academia, civil society, and other experts. The discussions held at this session will be analyzed to help inform, among other items: the kinds of grant criteria NTIA should consider, recommendations on the types of projects and programs the Innovation Fund should aim to support, and practical solutions to the chief challenges of open, interoperable, and standards-based RAN adoption.

Time and Date: NTIA will convene the public listening session on January 24, 2023, from 10 a.m. to 12:30 p.m. Eastern Standard Time. The exact time of the meeting is subject to change. Please refer to NTIA's website, <https://www.ntia.gov>, for the most current information.

Place: The meeting will be held virtually, with online slide share and

dial-in information to be posted at <https://www.ntia.gov>. Please refer to NTIA's website, <https://www.ntia.gov>, for the most current information.

Other Information: The meeting is open to the public and the press on a first-come, first-served basis. The virtual meeting is accessible to people with disabilities. Individuals requiring accommodations such as real-time captioning, sign language interpretation or other ancillary aids should notify the Department at InnovationFund@ntia.gov at least seven (7) business days prior to the meeting. SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Survey on the Strengths and Challenges of Military Relationships; OMB Control Number 0704–SCMR.

Type of Request: New.

Number of Respondents: 80,000.

Responses per Respondent: 1.

Annual Responses: 80,000.

Average Burden per Response: 15 minutes.

Annual Burden Hours: 20,000.

Needs and Uses: This collection is a DoD-sponsored comprehensive research study on the military-specific risk factors for domestic abuse and the best approaches across the coordinated community response to mitigate those factors. This collection is necessary to identify sustainable solutions to decreasing incidents and preventing violence before it occurs. This project is required by statute and will support (a) the programmatic needs of the sponsoring office: The Family Advocacy Program with Military Community and Family Policy, (b) Congressional requirements per SEC. 549C of the FY21 National Defense Authorization Act, (c) the current administration’s priority to address gender-based violence, and (d) implementation of some recommendations contained in the U.S. Government Accountability Office Report 21–289, released May 6, 2021. Domestic abuse can result in devastating personal consequences and societal costs, is incompatible with military values, and reduces mission readiness. The OUSD(P&R) Strategy for 2030 identifies a goal of resilient and adaptive total force. Without this study, the DoD risks continued incidents of domestic abuse across the armed forces. This survey will be fielded with active-duty married service members, active-duty unmarried service members in romantic relationships, and spouses of active-duty service members. Respondents will provide information currently not available from other sources to help DoD understand the strengths and challenges facing military couples, and in particular, the risk factors for and outcomes of military domestic abuse. Survey results will be used by the sponsor to improve the domestic abuse prevention and response system to better serve the needs of today’s military couples.

Frequency: On occasion.

Respondent’s Obligation: Voluntary.
