Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Regulations Restricting the Sale and Distribution of Cigarettes and Smokeless Tobacco To Protect Children and Adolescents

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA, Agency, or we) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Submit written comments (including recommendations) on the collection of information by January 12, 2023.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be submitted to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function. The OMB control number for this information collection is 0910-0312. Also include the FDA docket number found in brackets in the heading of this document.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Regulations Restricting the Sale and Distribution of Cigarettes and Smokeless Tobacco To Protect Children and Adolescents—21 CFR Part 1140

OMB Control Number 0910-0312—Revision

This information collection supports FDA regulatory requirements contained in part 1140 (21 CFR part 1140) authorized under Chapter IX of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 9) and associated Agency guidance. Regulations in part 1140 establish permissible forms of labeling

and advertising for cigarettes or smokeless tobacco and include reporting requirements directing persons to notify FDA if they intend to use a form of advertising or labeling that is not addressed in the regulations. Section 1140.30(a)(2) (21 CFR 1140.30(a)(2)) requires tobacco product manufacturers, distributors, and retailers to notify FDA if they intend to use advertising or labeling for cigarettes or smokeless tobacco in a medium that is not listed in the regulations. The notifications must be made 30 days prior to the use of such mediums.

We allow electronic and written submission of these notifications. Respondents can mail notifications as prescribed in section 1140.30(a)(2) to FDA. Instructions providing clarification on how to format the notification may be found in the guidance document entitled “Compliance with Regulations Restricting the Sale and Distribution of Cigarettes and Smokeless Tobacco To Protect Children and Adolescents” (2010) (<https://www.fda.gov/regulatory-information/search-fda-guidance-documents/compliance-regulations-restricting-sale-and-distribution-cigarettes-and-smokeless-tobacco-protect>).

In the **Federal Register** of June 27, 2022 (87 FR 38160), FDA published a 60-day notice requesting public comment on the proposed collection of information. Although one comment was received, it was not responsive to the four collection of information topics solicited. Subsequent to publication of the 60-day notice, we identified the associated guidance as an information collection instrument.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN ¹

21 CFR Section/Guidance Document Section	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
1140.30(a)(2)—Notification of other advertising or labeling medium	25	1	25	1	25

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

The burden hour estimates for this collection of information were based on submissions regarding cigarette and

smokeless tobacco product advertising expenditures.

FDA estimates that approximately 25 respondents will submit an annual

notice of alternative advertising or labeling, and the Agency has estimated it should take 1 hour to provide such notice. Therefore, the total estimated

time required for this collection of information is 25 hours. Based on a review of the information collection and the number of notifications received since 2018, we have made no adjustments to our burden estimate.

Dated: December 8, 2022.

Associate Commissioner for Policy.

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Medical Devices: Current Good Manufacturing Practice Quality System Regulation—21 CFR part 820

OMB Control Number 0910-0073—Extension

As authorized under section 520(f) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360j(f)), the Secretary of the Department of Health and Human Services has issued regulations requiring that the methods used in, and the facilities and controls used for, the manufacture, preproduction design validation (including a process to assess the performance of a device, but not including an evaluation of the safety and effectiveness of a device), packing, storage, and installation of a device conform to current good manufacturing practice (CGMP) and assure that the device will be safe and effective and otherwise in compliance with the FD&C Act.

The quality system regulation (QSR) under part 820 (21 CFR part 820) sets forth CGMP requirements governing the design, manufacture, packing, labeling,

storage, installation, and servicing of all finished medical devices intended for human use. The requirements cover purchasing and service controls, clarify recordkeeping for device failure and complaint investigations, clarify requirements for verifying/validating production processes and process or product changes, and clarify requirements for product acceptance activities, quality data evaluations, and corrections of nonconforming product/quality problems. In the **Federal Register** of February 23, 2022 (87 FR 10119), we proposed to incorporate by reference International Organization for Standardization 13485 (ISO 13485): Medical devices—Quality Management Systems—Requirements for Regulatory Purposes, the 2016 edition, to the QSR (RIN 0910-AH99), to align implementation of requirements.

Information collection under the QSR is intended to assist FDA in assuring the safety of medical devices. Requirements include documenting the establishment of procedures and identifying required records that assist FDA in determining whether firms are in compliance with CGMP. In particular, for example, compliance with CGMP design control requirements should decrease the number of design-related device failures that have resulted in deaths and serious injuries. Records must be made available for review or copying during FDA inspection. The regulations in part 820 apply to approximately 29,424 respondents, based on current data within our device registration and listing database.

In the **Federal Register** of August 22, 2022 (87 FR 51433), we published a 60-day notice soliciting comment on the proposed collection of information. No comments were received.

We estimate the burden of this collection of information as follows:
