

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive:

Airbus Canada Limited Partnership (Type Certificate Previously Held by C Series Aircraft Limited Partnership (CSALP); Bombardier, Inc.): Docket No. FAA–2022–1650; Project Identifier MCAI–2022–00210–T.

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by February 3, 2023.

(b) Affected ADs

None.

(c) Applicability

This AD applies to Airbus Canada Limited Partnership Model BD–500–1A11 airplanes, certificated in any category, as identified in Transport Canada AD CF–2022–04, dated February 14, 2022 (Transport Canada AD CF–2022–04).

(d) Subject

Air Transport Association (ATA) of America Code 53, Fuselage.

(e) Unsafe Condition

This AD was prompted by a report that the radome lightning diverter strips on certain aircraft were painted in production; paint on the diverter strips can compromise the radome lightning protection. The FAA is issuing this AD to address reduced effectiveness of the diverter strips, which can lead to the puncture of the nose radome by lightning and potential arc attachment to antennas, structures, and other equipment in the area of the radome. The unsafe condition, if not addressed, could result in damage to the localizer or glideslope antennas, and consequent loss of instrument landing system localizer inputs or deviation information.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Requirements

Except as specified in paragraph (h) of this AD: Comply with all required actions and compliance times specified in, and in accordance with, Transport Canada AD CF–2022–04.

(h) Exceptions To Transport Canada AD CF–2022–04

(1) Where Transport Canada AD CF–2022–04 refers to its effective date, this AD requires using the effective date of this AD.

(2) Where Transport Canada AD CF–2022–04 specifies removing and installing a radome using certain aircraft maintenance publication data modules, this AD also allows accomplishing those actions in accordance with Airbus Canada Limited Partnership A220 Service Bulletin BD500–538009, Issue 002, dated June 2, 2022.

(i) Credit for Previous Actions

This paragraph provides credit for actions required by paragraph (g) of this AD, if those

actions were performed before the effective date of this AD using Airbus Canada Limited Partnership A220 Service Bulletin BD500–538009, Issue 001, dated May 9, 2022.

(j) Additional AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs):* The Manager, New York ACO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the manager of the certification office, send it to ATTN: Program Manager, Continuing Operational Safety, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7300 or email to: 9-avs-nyaco-cos@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer:* For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, New York ACO Branch, FAA; or Transport Canada; or Airbus Canada Limited Partnership's Transport Canada Design Approval Organization (DAO). If approved by the DAO, the approval must include the DAO-authorized signature.

(3) *Required for Compliance (RC):* Except as required by paragraph (j)(2) of this AD, if any service information contains procedures or tests that are identified as RC, those procedures and tests must be done to comply with this AD; any procedures or tests that are not identified as RC are recommended. Those procedures and tests that are not identified as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the procedures and tests identified as RC can be done and the airplane can be put back in an airworthy condition. Any substitutions or changes to procedures or tests identified as RC require approval of an AMOC.

(k) Additional Information

For more information about this AD, contact Steven Dzierzynski, Aerospace Engineer, Avionics and Electrical Systems Section, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7367; email 9-avs-nyaco-cos@faa.gov.

(l) Material Incorporated by Reference

(1) The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) You must use this service information as applicable to do the actions required by this AD, unless this AD specifies otherwise.

SUPPLEMENTARY INFORMATION: On September 26, 2022, the Department of Transportation (Department) publicly announced and posted to its website a notice of proposed rulemaking (NPRM) that proposed several disclosure requirements to enhance the transparency of ancillary service fees that consumers pay for when they purchase airline tickets. (See 87 FR 63718; October 20, 2022). In the NPRM, the Department proposed to require U.S. air carriers, foreign air carriers, and ticket agents to clearly disclose passenger-specific or itinerary-specific baggage fees, change fees, and cancellation fees to consumers

whenever fare and schedule information is provided to consumers for flights to, within, and from the United States. The Department also proposed requiring similar disclosures for fees for a child 13 or under to be seated adjacent to an accompanying adult, as well as the transactability of such seating fees. The proposed rule would require carriers to provide useable, current, and accurate information regarding fees to ticket agents that sell or display the carrier's fare and schedule information. The NPRM provided for a comment period of 60 days after publication of the NPRM in the *Federal Register*, *i.e.*, December 19, 2022.

Since the publication of the NPRM, several commenters have requested that the Department extend the comment period given the complexity of the proposals. Airlines for America (A4A) and International Air Transportation Association (IATA) filed a joint request for the Department to extend the comment period by 60 days given the expansive scope and complexity of the NPRM. The Travel Technology Association, the American Society of Travel Advisors, and Global Business Travel Association also filed a joint request asking for a 60-day extension primarily because of the complexity of the issues and noted that developing fully responsive comments that the Department will find most useful will take more time. The National Air Carrier Association and Sabre Corporation also separately requested an additional 60 days. Further, on December 8, 2022, during a public meeting of the Aviation Consumer Protection Advisory Committee (ACPAC) to discuss this rulemaking, the consumer representative of the ACPAC stated that he does not oppose the requests for an extension. A4A and IATA have also asked for clarification on various issues in the NPRM. The Department's responses to the questions raised by airlines will be posted in the rulemaking docket at <https://www.regulations.gov>, docket DOT-OST-2022-0109.

The Department has reviewed the requests for extension of the comment period and has determined to extend the comment period for the proposed rule from December 19, 2022, to January 23, 2023. The Department believes that granting a 35-day extension of the original comment period is sufficient to allow stakeholders to conduct a thorough and careful consideration of all potential impacts, including the Department's responses to the airlines' clarification requests, and prepare comments.

Signed in Washington, DC, on or about this 13th day of December 2022, under authority delegated at 49 U.S.C. 1.27(n).

John E. Putnam,

General Counsel.
