BILLING CODE 4915–01–C

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Request To Release Airport Property

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on request to release airport property for land disposal at the Liberal Mid-America Regional Airport (LBL), Liberal, Kansas.

SUMMARY: The FAA proposes to rule and invites public comment on the release and sale of one parcel of land at the Liberal Mid-America Regional Airport (LBL), Liberal, Kansas.

DATES: Comments must be received on or before January 23, 2023.

ADDRESSES: Comments on this application may be mailed or delivered

to the FAA at the following address: Amy J. Walter, Airports Land Specialist, Federal Aviation Administration, Airports Division, ACE–620G, 901 Locust Room 364, Kansas City, MO 64106.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to: Brian Fornwalt, Airport Manager, Liberal Mid-America Regional Airport, 302 Terminal Road, P.O. Box 2199, Liberal, KS 67901, (620) 626–0188.

FOR FURTHER INFORMATION CONTACT: Amy J. Walter, Airports Land Specialist, Federal Aviation Administration, Airports Division, ACE–620G 901 Locust Room 364, Kansas City, MO 64106, (816) 329–2603, amy.walter@faa.gov.

The request to release property may be reviewed, by appointment, in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request to release approximately 1.50 acres of airport property at the Liberal Mid-America Regional Airport (LBL) under

the provisions of 49 U.S.C. 47107(h)(2). The Airport Manager has requested from the FAA the release of a 1.50 acre parcel of airport property be released for sale for commercial development. The FAA determined the request to release and sell property at Liberal Mid-America Regional Airport (LBL) submitted by the Sponsor meets the procedural requirements of the Federal Aviation Administration and the release and sale of the property does not and will not impact future aviation needs at the airport. The FAA may approve the request, in whole or in part, no sooner than thirty days after the publication of this Notice.

The following is a brief overview of the request:

Liberal Mid-America Regional Airport (LBL) is proposing the release and sale of a 1.50 acre parcel of airport property. The release of land is necessary to comply with Federal Aviation Administration Grant Assurances that do not allow federally acquired airport property to be used for non-aviation purposes. The sale of the subject

property will result in the release of land and surface rights at the Liberal Mid-America Regional Airport (LBL) from the conditions of the AIP Grant Agreement Grant Assurances, but retaining the mineral rights. In accordance with 49 U.S.C. 47107(c)(2)(B)(i) and (iii), the airport will receive fair market value and the property will be developed for a commercial business.

Any person may inspect, by appointment, the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**. In addition, any person may, request an appointment and inspect the application, notice and other documents determined by the FAA to be related to the application in person at the Liberal Mid-America Regional Airport.

Issued in Kansas City, MO, on December 14, 2022.

James A. Johnson,

Director, FAA Central Region, Airports Division.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. 2022-1273]

Agency Information Collection Activities: Requests for Comments; Approval of Clearance Renewal for Information Collection: For the Information Collection Entitled, Website for Frequency Coordination Request

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to allow renewal of the currently approved information collection via the FAA's deployed Web-based Frequency Coordination system (WebFCR), which collects certain broadcast and transmitter frequency information under OMB control number 2120-0786. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 28, 2022. The collection involves information needed to perform the aeronautical studies, technical evaluations and engineering required to meet the specified requirements for the

radio frequency engineering pursuant to the FAA Order. The Federal Aviation Administration (FAA) Order 6050.32.B, chapter 3, section 302, which outlines the US National Organizations, and the role of the National Telecommunications and Information Administration (NTIA) is assigning the Aviation Assignment Group (AAG) of the radio spectrum to FAA which support aeronautical services. Hence, FAA must "authorize" aeronautical frequencies of broadcast applications which impact the AAG bands.

DATES: Written comments should be submitted by January 23, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Christopher S. Jones by email at: Christopher.S.Jones@faa.gov; phone: (202) 267-5926.

By mail: Christopher S. Jones, Spectrum Engineering and Assignment, AJW-191, Room 7E-325, 800 Independence Avenue, Washington DC 20591.

By fax: (202) 267-6056.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120-0786.

Title: website for Frequency Coordination Request (WebFCR) webfcr.faa.gov.

Form Numbers: Historically related to FAA Form 7460-1.

Type of Review: Request for renewal of information collection.

Background: The **Federal Register** notice with a 60-day comment period soliciting comments on the following collection of information was published on September 28, 2022 (FR 2022-20969). The purpose of the information is to meet the reference 49 U.S.C. Section 44718(c) under Broadcast Applications and Tower Studies states, 'in carrying out laws related to a broadcast application'—the

Administrator of the Federal Aviation Administration and the Federal Communications Commission shall take action necessary to coordinate efficiently—(1) The receipt and consideration of, and action on, the application; and (2) The completion of any associated aeronautical study. Currently, transmitter broadcast radio frequency data is collected via OMB Control 2120-0786 to address non-Federal, military, U.S. Federal agency, State and municipalities broadcast applications which require consideration, analysis or aeronautical studies pursuant to 49 U.S.C. 44718(c).

Respondents: Approximately 2400 annually. The Respondents are engineers, analysts, consultants, stakeholders or federal agency managers, including military services, who have a need to transmit on a radio frequency which is within the National Telecommunications and Information Administration's (NTIA) Aviation Assignment Group (AAG) frequency band assigned to the FAA for civil aviation use. The response to this data collection is required for the proponent to obtain FAA concurrence to use a radio frequency that impacts civil aviation. The information collected through the WebFCR portal supports the engineering, modeling, validation and workflow management of the request to evaluate if the request interferes or impacts civil aviation operations pursuant to FAA Order 6050.32B.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 0.2 hours.

Estimated Total Annual Burden: 480 hours.

Issued in Washington, DC on December 20, 2022.

Christopher S. Jones,

Spectrum Engineering and Assignment Navigation Lead, Spectrum Engineering and Assignment Group, AJW-1910.
