

Title: Generic Clearance for Collection of Qualitative Feedback on Agency Service Delivery (OMB Control No. 3038–0107). This is a request for an extension of a currently approved information collection.

Abstract: In accordance with section 748 of the Dodd-Frank Act, the OCEO anticipates undertaking a variety of service delivery focused activities over the next few years that include consumer outreach and information-sharing with stakeholders which are responsive to stakeholders' needs and sensitive to changes in the market. The proposed information collection activity will use similar methods for information collection or otherwise share common elements, and provide a means to gather qualitative customer and stakeholder feedback in an efficient, timely manner. By qualitative feedback we mean information that provides useful information on perceptions and opinions. The solicitation of information on delivery of consumer services will address such areas as appropriate messages, effective message delivery methods, effective event outreach tactics and characteristics, new outreach program ideas and content, and current consumer beliefs, psychographics and social norms that will assist the agency in developing outreach and communications campaigns. Since these systems will use similar methods for information collection or otherwise share common elements, the OCEO is proposing a generic clearance for this process, which will allow the OCEO to implement these systems and meet the obligations of the PRA without the delays of the normal clearance process. Collection methods may include focus groups and surveys as well as other relevant collection methods that meet the conditions appropriate for a generic clearance as outlined below. The OCEO will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondent, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;

- Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the Commission (if released, the Commission must indicate the qualitative nature of the information);

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

With respect to the collection of information, the Commission invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;

- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burdens of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.¹

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <https://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the Information Collection Request will be retained in the public comment file and will be considered as

AGENCY: Bureau of Consumer Financial Protection.

ACTION: Notice and request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Consumer Financial Protection Bureau (Bureau or CFPB) requests the extension of the Office of Management and Budget's (OMB's) approval of an existing information collection titled "Truth in Savings (Regulation DD)" approved under OMB Number 3170–0004.

SUPPLEMENTARY INFORMATION:

Title of Collection: Truth in Savings (Regulation DD).

OMB Control Number: 3170-0004.

Type of Review: Extension without change of a currently approved collection.

Affected Public: Private sector: businesses or other for-profits institutions.

Estimated Number of Respondents: 171.

Estimated Total Annual Burden Hours: 561,632.

Abstract: Consumers rely on the disclosures required by the Truth in Savings Act (TISA) and Regulation DD to facilitate informed decision-making regarding deposit accounts offered at depository institutions. Without this information, consumers would be severely hindered in their ability to assess the true costs and terms of the deposit accounts offered. Federal agencies and private litigants use these records to ascertain whether accurate and complete disclosures of depository accounts have been provided to consumers. This information also provides the primary evidence of law violations in TISA enforcement actions brought by the Bureau. Without the Regulation DD recordkeeping requirement, the Bureau’s ability to enforce TISA would be significantly impaired.

Request for Comments: The Bureau published a 60-day **Federal Register** notice on October 4, 2022 (87 FR 60136) under Docket Number: CFPB-2022-0065. The Bureau is publishing this notice and soliciting comments on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Bureau, including whether the information will have practical utility; (b) The accuracy of the Bureau’s estimate of the burden of the collection of information, including the validity of the methods and the

assumptions used; (c) Ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be reviewed by OMB as part of its review of this request. All comments will become a matter of public record.
