

tenancy of the over-income family no later than 6 months after the end of the two-year period. Additionally, pursuant to section 103 of HOTMA, PHAs must submit an annual report on two specific data points: 1. The number of over-income families residing in public housing and 2. the number of families on the public housing waiting lists.

The number of over-income families currently residing in public housing is already being collected via the form HUD-50058. Therefore, PHAs will be allowed to use income data already provided by form HUD-50058, under OMB approval number 2577-0083, which is submitted electronically in the PIH Information Center (PIC) system to satisfy the first data requirement to report the annual number of over-income families residing in public housing. The requirement for PHAs to report on the number of over-income

families will be satisfied with currently-existing 50058 reporting requirements and HUD will compile this with the data provided on the number of families on the public housing waiting list for the public report.

The requirement for PHAs to report on the number of families on the public housing waiting list is new and so has resulted in the need to for this collection of information request. Each PHA will now be required to submit the total number of families on the public housing waiting lists annually utilizing the newly created electronic Public Housing Waiting List Data Collection Tool. The data on the total number of unduplicated families on the public housing waiting list will be provided by the PHA in the aggregate and no personally identifiable information will be collected. Section 103 of HOTMA permits HUD to determine the format of

these annual reports and HUD has elected to utilize PIC data when possible as this will result in no additional burden to the PHA. Per the requirements of Section 103 of HOTMA, HUD will compile the data provided in PIC and the new data that will be collected via the electronic Public Housing Waiting List Data Collection Tool to publish this information annually in a publicly available report.
